

## GREEK ARMY TAKES STRONGHOLD SALONIKI

**Powers Conflict Over Disposition Spoils of War; Serious Complications May Arise—Warships Arrive at Doomed City**

LONDON, Nov. 9.—Judging from tonight's dispatches, Constantinople virtually has abandoned hope of the ability of the Turks to offer serious resistance at the Tchatalja line and is viewing the necessity of calling the city's manhood to the defense of the city itself. If this is the case the end of the war cannot be far distant.

The Greeks today achieved the crowning feat of their campaign by occupying Saloniki. It is not known whether the Turkish garrison of 15,000 evacuated the city before the coming of the Greeks or surrendered. It is believed, however, they evacuated.

The Greeks still have to capture Janina, Adrianople and Serrae before they can claim the principal spoils of the war. It is reported that the principal spoils of the war are being divided up. The British cabinet is expected to meet tomorrow to discuss the terms of the armistice.

**New Difficulties Loom Up.**

With the approach of the end of the war, diplomatic difficulties are becoming more and more acute. They are taking the form of a conflict between the triple alliance and the triple entente, which may prove almost an unbearable strain on European diplomacy. The situation is so grave that a special meeting of the British cabinet is expected to meet tomorrow to discuss the terms of the armistice.

There is reason to believe that Austria has made it clear to Serbia and the powers that she never will consent to Serbia occupying Albania or parts of the Adriatic. It is reported that the powers recently have approached the Balkan allies with a view of ascertaining on what terms they were prepared to accept peace. It is understood the allies were not disposed to commit themselves and insisted upon direct negotiations with Turkey.

**Powers Conflict Over Spoils.**

It is believed the only definite outcome of the European peace parlous thus far is an understanding that the Turks shall not be driven from Constantinople. One result of the conflict of the powers over the division of the spoils has been to strengthen Turkey's determination not to appeal to the allies for peace but to resist to the end.

It is asserted in Vienna that the ministers of Germany and Italy in Belgrade have been instructed to declare that the triple alliance with regard to the appearance of Serbia on the Adriatic is contrary to their interests.

**Greeks Capture Saloniki.**

ATHENS, Nov. 8.—No official details concerning the fall of Saloniki had been received here at 1:30 this morning. Nevertheless celebration of the event is proceeding. The city is illuminated, a deum has been sung and a procession headed by the mayor.

**U. S. WARSHIPS SENT TO TURKISH WATERS PROTECT AMERICANS**

WASHINGTON, Nov. 8.—While active preparations are being made to get the armored cruisers Tennessee and Montana headed towards Turkish waters within 48 hours, to protect Americans, the revenue cutter Unalakleet, now at Port Said, probably will be turned back from the Suez and ordered to rush to the Turkish coast, where, after a three and one-half day's sail, she could arrive a full fortnight ahead of the big cruisers.

Acting Secretary of State Wilson tonight is considering the advisability of using the Unalakleet, and if he makes the request she will set out tomorrow. The Unalakleet is a fine, new craft, commanded by Capt. R. C. Crisp. She carries a crew of 70 men, and could furnish refuge for 500 of more Americans.

**AH Dispatch Used.**

The Tennessee, the flagship of Rear Admiral Knight, who will command the expedition and the Montana, which will carry 700 sailors and a company of marines.

A special train is now taking 400 bluejackets from the Norfolk navy yard to fill out the ship's crews. Capt. Harry Field will be in command of the Tennessee, while Capt. W. B. Fletcher will command the Montana. Both vessels always carry six months' supplies and, with the stocks of their larders in, could feed a vast number, should famine follow in the train of disaster that now threatens Americans in the Orient.

Save for the little gunboat Scorpion, which is at Constantinople, these two cruisers will be the first American naval vessels to pass through the Dardanelles since old Hartford of Civil War fame was allowed to anchor in front of Constantinople by special decree of the sultan.

## S. P. TRAIN DE LUXE IS HELD UP IN CAL.

**One of Two Bandits Was Killed, Other Escapes With Mail Bag**

REDDING, Cal., Nov. 8.—The north-bound Santa Fe limited, the Southern Pacific's fastest coast train de luxe, was held up and robbed, and one bandit was killed, at Delta, 30 miles north of here tonight.

A companion of the dead bandit, who was with the registered mail. None of the passengers was injured. A plucky brakeman nearly frustrated the robbers and accounted for the one killed.

The Santa Fe stopped at Delta for water, and two bandits boarded the train. One climbed over the tender and covered the fireman and engineer with a revolver. The other entered the mail car and held up the mail clerk.

A brakeman, who had dropped off the train on the side ways from the south, saw the extra men in the tender and alerted the situation. He ran to the nearest store, caught up a rifle, and returning shot the robber who was in the tender.

The other bandit leaped at the sound of the shot and ran for the nearby hills, carrying the registered mail sack. He has a good chance of escape into the backwoods high areas. The train proceeded on its journey.

## PRES-ELECT WILSON TO GET OUT REACH POLITICAL CALLERS

PRINCETON, N. J., Nov. 8.—President-elect Wilson intends to follow out his "listening policy" for several weeks before making any announcements of importance.

The president-elect said tonight he had decided to go away next week on a vacation of three or four weeks, during which time he would be out of reach of political callers. The place where he will go will be announced later.

Governor Wilson said he is in need of rest and intended to get himself in good physical condition for the session of the New Jersey legislature beginning the first of the year when he will carry the two-fold burden of a legislative program for the state and the preliminary arrangements for his presidential administration.

**Would Make It Unanimous.**

The president-elect took a five-mile walk today around the Princeton battlefield of Revolutionary days.

Governor Wilson stopped for a few minutes to talk with Mrs. Anna Ricketts, 55 years old, his next door neighbor.

Governor Wilson likes to chat with Mrs. Ricketts because though far advanced in years, she said she retained a remarkable viewpoint on politics.

Several telegrams came today, one of them from Eugene Chaffin, the prohibition candidate for the presidency. He wired his congratulations and added: "I move to make it unanimous."

## TEST STRENGTH ON FIRST SENATE MEET

**Democrats Now Claiming Fifty Seats in Upper Branch Congress**

WASHINGTON, Nov. 8.—The reorganization of the senate by the Democrats, March 4, is assured, said Senator Hoke Smith of Georgia, today, in summing up the status of the senate after March 4.

Senator Smith spoke with assurance, due largely to the familiarity with the situation on account of his connection with the senatorial branch of the campaign work. He spent a month in Chicago, looking after the legislators in various states.

"We have 30 Democrats who hold over and five who already have been elected, making 35," said the senator. "We have Democrats from Georgia, Texas, Kansas, Arkansas, Montana, Oklahoma, North Carolina, South Carolina, and a few from Colorado, who have been elected in the primaries."

**Claims 50 Senators.**

The Democrats undoubtedly have carried the legislatures of New Jersey and Delaware, which insures Democratic senators from each of those states. Advice from Nevada and Oregon clearly indicate the election of Democratic candidates for the senate. This would give 49 Democrats, or a positive majority of the senate.

Mr. Smith was inclined to make additional claims on the states which are considered doubtful. He said that, according to his advice, the Democrats will have a majority of the legislature of Tennessee, which would insure a Democratic senator from that state. He also counted on further Democratic accessions from Illinois and from some of the other states.

"We can rely safely on 50 Democrats in the next senate," he declared. Senator Smith's summary of Democratic control in the senate is substantially in accord with the general view taken at the senate press conference. In other quarters an impartial

(Continued on Page Two.)

## MAY CONTEST VOTE IN CAL.

**Democrats Assert They Will Challenge Returns From Los Angeles**

**ROOSEVELT HAS LEAD 751**

**Name of Acting Gov. Wallace Scratched on Account of Official Acts**

SAN FRANCISCO, Nov. 8.—With 751 small precincts to hear and the vote of California on presidential is as follows:

Roosevelt, 231,363; Wilson, 220,015. These totals were compiled from front corrected official returns from the county seats. The 751 precincts remaining unreported are all in remote regions. It is probable that the vote of many of them will not be known before the official canvass.

Not all of the Roosevelt electors, however, may have won. The name of Albert J. Wallace, which carried his electoral vote, was scratched by many voters, presumably because of his course in running the deep sentences of murder, as acting governor.

**Scratch Wallace's Name.**

In many instances, it is said, Wallace's name was actually penciled off the ballot. Attorney General Webb has rendered an opinion that such ballots were invalidated.

Acting upon this opinion the Democratic managers have announced that if the final returns leave Roosevelt still in the lead, they will challenge the vote of Los Angeles county, where the progressives rolled up their heaviest plurality and where Wallace ran behind the other Roosevelt electors.

Wilson and Roosevelt alternated in the lead early in the day, when the distant mountain precincts began to strike. In battling with a cinch many surprises in the way of reversals from expected results. Toward evening, Roosevelt began to draw away, his margin being augmented by several corrections of totals from county seats, based upon complete and official returns. By 4 p. m. it had increased to nearly 1,000 votes and it became almost certain that the unreported precincts in counties carried by the Democratic ticket would not overcome this lead.

**Court May Decide.**

The final disposition of California's 13 electoral votes may be decided by the courts. Democratic managers in

(Continued on Page Three.)

## MONT. DEMOCRATIC BY BIG MAJORITY

HELENA, Mont., Nov. 8.—Related returns from Montana did not serve today to make a sturdy change in the relative positions of the various contenders or to disturb the commanding lead of Woodrow Wilson and other Democratic candidates. On the face of the returns from 317 other precincts of 916 in the state, Montana will have a Democratic senator, a Democratic congressman and two Democratic congressmen with a Democratic majority of 72 in the lower house, of the legislature and three in the senate.

Returns from these precincts give Wilson 25,627; Roosevelt 15,162; Taft 13,380.

For senator, Walsh, Democrat, has maintained a lead of 7,000 over Dixon, Progressive, who, in turn, is well ahead of Smith, Republican.

For governor, Stewart, Democrat, is leading Wilson, Republican, by more than 3,000, with Edwards, Progressive, third.

For congressmen, Stout and Evans, Democrats, continue to lead Fray, Republican, their nearest rival, by substantial pluralities.

Unofficial figures from 28 counties incomplete give Debs' vote 7,422.

## HAZEL DAVIS, GIRL TRAMP, BEATING WAY EAST, IS TAKEN FROM TRAIN AT MIDNIGHT AND SENT TO JAIL

Hazel Davis, young and pretty and, according to her story, daughter of a Kentucky clergyman and graduate of a fashionable southern seminary, was taken from a box car in the Santa Fe yards at midnight last night, while stealing a ride to Denver. She was arrested on a charge of vagrancy and locked in the women's ward in the county jail.

Like a chapter from a novel is the story the girl told the police after her arrest. Her experiences, almost beyond belief as incidents in the career of a young woman who, it is evident, had been carefully reared, rival the adventures of Jack London, or other famous knights of the steel highway.

**Father is a Minister.**

"My father," said the girl, "is a clergyman in a small town in Kentucky. But I must have inherited a gypsy strain for as far back as I can

## PHOTOS DYNAMITERS IN ROGUES' GALLERY

**Testimony Introduced That Members of Board Were Sought by Police**

INDIANAPOLIS, Ind., Nov. 8.—I enclose the photograph which I took from the gallery. That was the man Edward Smythe, secretary of an Iron Workers union at Peoria, Ill., sent to the United States penitentiary at Leavenworth, Kan., for photographing the headquarters of the dynamite conspirators at Herbert S. Harkin, member of the executive board, which had been taken from the rogues' gallery in the police department, according to letters produced by the government at the trial of the accused dynamite conspirators today.

John J. McNamara's only son, Smythe, as read was:

"That was not the way to send that photograph. Hereafter, when you find photographs of members of the executive board in a rogues' gallery, put them in a separate envelope and mark personal. President Ryan was present when your letter came, and I am sure he had a fine executive board."

**Harkin "Mugged" in Detroit.**

Harkin, accused by Cyril McNamara as the director of the living squadron of dynamiters, and now successor to McNamara, was sent by the government to the Federal reformatory at Detroit, where he formerly lived.

After the loss of life at the Los Angeles explosion, and during the six months before the arrest of the dynamiters, McNamara wrote letters to members of the union, cautioning them to be "careful" as to the kind of letters they sent to headquarters. It was charged in connection with the reading of a McNamara letter to Murray L. Pennell, Springfield, Ill., as follows:

"Am surprised at the kind of letter you sent me. Hereafter, be more careful. For the Lord only knows who reads these letters."

The government produced a notice headed "Warning" and signed by President Ryan and Harkin, which was published in the Iron Worker magazine, a month after the McNamara letter was received, and the purpose of which the government alleged was to induce the members to destroy evidence about dynamiters.

**Read McNamara Letters.**

Accusations that Philip A. Conley, New Orleans, and an iron worker admitted to membership in the union, to do dynamiting, and that Conley planned to blow up a building at Houston, Tex., were detailed by the government.

A McNamara letter dated January 10, 1911, to Conley, was read:

"It seems to be common knowledge that a certain member was admitted for a purpose, and all the details seem to be known by several people. I am

(Continued on Page Three.)

## Roosevelt Refuses Accident Insurance Paid for by Outlook

NEW YORK, Nov. 8.—Colonel Roosevelt refused to New York from Robert B. Ayer, today, and visited his editorial office for the first time since he was shot. He said that he had adopted a policy of silence and had no further comment to make on the election. He was feeling fine, he said, and had almost forgotten he had a bullet in his chest.

When informed today that an accident policy for \$25,000 had been taken out last June in behalf of his family by the Outlook, and that the policy was still in force at the time he was shot, he declined to accept any indemnity, and directed that the policy be surrendered.

## FALLS INTO CELLAR HIS FIRST DAY IN NEW HOME

William Elliott, aged about 35, sustained a comical fracture of his right leg above the knee late Wednesday evening, when he fell into the cellar at his home opposite the Pike View road. He had moved into the house, which had just been built and was not fully completed, that day and was in the rear of the house when the accident occurred. He was brought to Bethel hospital, where Dr. H. Tresebach reduced the fracture. Elliott was resting easy last night.

## STRIKE TAKEN UP IN REPORT HEAVY PROFITS MADE BY UTAH COPPER CO.

**Pays \$1,182,412.50 in Dividends and Has \$1,744,057 Surplus**

The third quarterly report for 1912 of the Utah Copper company, just issued by President Charles M. MacNeill of this city, and General Manager D. C. Jacklin of Bingham, Utah, shows a total net profit of \$2,928,469.74 for the three months. Dividends of \$1,182,412.50 were paid, leaving a net surplus of \$1,744,057.24. The gross production of copper contained in concentrates for the quarter was 25,968,829 pounds, or more than during either of the two preceding quarters, despite the strike at the property.

Of special interest is that part of the report referring to the strike. A demand for a flat increase of 50 cents a day for all workmen engaged in the mining district in the Bingham district, and recognition of the Western Federation of Miners by the companies in their dealing with employees, was the cause of the strike, according to MacNeill.

The report follows:

To the Stockholders of the Utah Copper Company:

We submit herewith statement regarding the operations of the company for the three months. Dividends of \$1,182,412.50 were paid. The gross production of copper contained in concentrates for the quarter was 25,968,829 pounds, or more than during either of the two preceding quarters, despite the strike at the property.

(Continued on Page Four.)

## ROOSEVELT RUNS SECOND IN COLO.

**COSTIGAN BEATS PARKS FOR GOVERNOR**

**Unofficial Figures Received From 49 Out of Total 62 Counties**

DENVER, Nov. 8.—With 255 precincts out of 1,412 in the state still unreported at 11 o'clock tonight, Woodrow Wilson's plurality in Tuesday's election was 37,454 over Roosevelt. The unofficial figures from 1,114 precincts in the state, including Denver and all the large cities and counties, give Wilson 39,683; Roosevelt, 36,229; Taft, 45,127. Reports from the missing precincts are not expected until the official count is made.

From the same returns, Ammons, Democrat, for governor, leads the national ticket with 24,834. Costigan, Progressive, 25,994; Parks, Republican, 20,428; Alving, Ammons, a plurality of 35,930.

The Democrats are assured of a big majority in the state assembly, which will elect two United States senators. Interest today centered in the outcome of the senatorial, legislative and judicial contests. There are 100 members of the legislature. Of these, 11 Democrats and six Republicans are holdover senators, with 83 to be elected.

**Claim 76 Members.**

State Chairman G. T. Bradley of the Democratic headquarters today claimed that the Democrats would have 76 members of the assembly, including the 11 holdover senators. This number may be slightly reduced by the official count from rural districts, where the contest has been close.

One of the closest races reported is that of Senator R. T. Napier, Democrat, for reelection in Garfield, Eagle and Rio Grande counties. Reports from Glenwood Springs today indicated that the final result hinged on the vote from Eagle county.

**How Vote Stands.**

The vote on the measures from the 21 counties follows:

Statewide prohibition—For, 28,412; against, 57,053.  
Sovereignty and seizure—For, 29,670; against, 24,300.  
Working eight-hour law—For, 41,342; against, 15,015.  
Public service commission—For, 14,925; against, 33,560.  
Establishing state fair—For, 25,193; against, 22,117.  
Immigration bureau fund—For, 14,414; against, 20,234.  
Reducing cost publishing bills—For, 11,204; against, 18,541.  
Home rule—For, 24,019; against, 16,667.

Revolutive officers—For, 23,294; against, 14,215.  
Publication of bills—For, 17,489; against, 11,556.  
Election procedure—For, 12,451; against, 10,041.  
Continuation of court—For, 18,891; against, 14,732.  
Public utilities courts—For, 12,164; against, 19,633.

**Headless Ballot Safe.**

Headless ballot—For, 13,538; against, 15,016.  
Schools—For, 16,068; against, 37,463.  
Recent court decisions—For, 22,102; against, 17,990.

(Continued on Page Three.)

## WILSON CARRIES WYO. BY SMALL PLURALITY

CHEYENNE, Wyo., Nov. 8.—With four counties incomplete, and counted the vote on president gives Wilson, 12,314; Taft, 11,589; Roosevelt, 6,471.

Republican Senator Wilson's election by 500. The senatorship is still in dispute. The vote in the next legislature gives Republicans, 36; Democrats, 40, with Lincoln county, holding eight legislators, still in doubt and the Republicans conceding the Democrats a possible 38 in the legislature.

## GREATEST CORN CROP WORLD EVER KNOWN RAISED THIS YEAR

WASHINGTON, Nov. 8.—A corn crop of 3,169,137,000 bushels or 231,827,000 bushels more than the greatest crop of corn ever grown in any country of the world, is the feature of the country's most remarkable agricultural year in history, according to the November crop report of the federal department of agriculture issued today.

The report completed the government's preliminary estimate of the national principal farm crops. This great crop of corn was won on November 1 to farmers. \$1,850,776,000.

The enormous sum of \$1,850,776,000 represented the farm value of November 1 of the crops of corn, hay, wheat, oats, potatoes, barley, flaxseed, rice and buckwheat. With the value of these growing cotton crop and the crops of tobacco, rice and apples, the aggregate value of these principal farm products will amount well beyond \$5,000,000,000.

Record crops of corn, potatoes, flaxseed, oats, barley, rice and hay were harvested this year.

The yield per acre and production of corn and potatoes in the principal states follows: In part, bushels in total production.

Corn: Texas 213 yield 15,000 bushels; South Dakota 104 yield 18,000 bushels; Colorado 95 yield 1,571 bushels.

Potatoes: Colorado 35 yield 5,071 bushels.

## BOARD ARMY OFFICERS FINISHES INVESTIGATION

EL PASO, Tex., Nov. 8.—The board of army officers completed its investigations today after hearing 18 damage claim cases here growing out of the battle of Juarez and six cases occasioned by the battle at Agua Prieta, opposite Douglas, Ariz., during the Madero revolution last year. In many of the cases the available evidence was meager. The commission, headed by Lieut. Col. Francis J. Kernan, will make its report at the next session of congress at which time the subcommittee headed by Senator William Alden Smith also will report regarding causes of Mexican revolutions.

## BLOODY CONFLICT IN MEXICO LASTS 4 DAYS

MEXICO CITY, Nov. 8.—The fight about Cuernavaca, capital of Morelos, continued for four days. The number of dead and wounded left on the field indicates the federal artillery, which arrived yesterday at a critical moment, wrought havoc in rebel ranks. The columns of infantry brought up by General Blanquet was composed of veteran warriors, who with the artillery soon turned the tide in favor of the government and put the rebels to flight. The federal loss was small.

Be optimistic, smoke

## TEST STRENGTH

(Continued From Page One.)  
survey of the returns gives totals up to the present (this is follows):  
**Several Seats Doubtful.**  
Democrats, 48; Republicans, 41; doubtful, 7; total membership, 96.  
The seven seats still classed as doubtful are the two from Illinois and one each from Michigan, Oregon, South Dakota, Tennessee and Wyoming.  
Without any of these seven doubtful seats, the present asserted strength of 48 is exactly half of the total membership, and is sufficient, with the vote of Vice President Marshall, on a tie, to control the senate.  
The test as to the political affiliation of the Progressives will come after the convening of congress on the first Monday in December.  
"If I could have my way," said Senator Oliver of Pennsylvania, one of the foremost of the standard Republicans today, "I would determine the question at the earliest moment. With the vice president no longer with us, it will become imperative to elect a president pro tem of the senate as soon as we convene."

**Refuse Support Gallinger.**  
"As is generally known, the Progressives refuse to support Senator Gallinger, who was the caucus nominee president pro tem of the last session. I would call another caucus to name a candidate for this office and would make his support a test of party loyalty on the part of senators claiming to be Republican."

If the course suggested by Mr. Oliver should be pursued, it might result in the early recognition of a third party in the senate. It is believed, however, by Senator Gallinger's friends, that the Progressive opposition to him had largely died away before the close of the last session. The Democratic senators are most anxious to obtain such a majority of their own membership in the senate as entirely to avoid the necessity of any dependence upon the Progressives after March 4.

That is LAXATIVE BROMO-QUININE. Look for the signature of E. W. GROVE. Cures a Cold in the Day. Cures Gripes Two Days. 25c.

## FOUR GUNMEN PREFER TO BE TRIED TOGETHER

NEW YORK, Nov. 8.—Five of the 12 jurors of the trial of the four gunmen accused of the killing of Herman Rosenthal, the gambler, had been chosen when the opening day of the trial was adjourned this evening.  
The four prisoners—Dino, Frank, "Whitey" Lewis, "Lefty" Doyle and "Gyp" the Blood—were summoned before Justice Goff in the supreme court in the middle of the afternoon.  
The men had elected to be tried together. It is believed the jury will be completed by noon tomorrow.

## A. F. OF L. MEET NOV. 11

CHESTER, N. Y., Nov. 8.—Court decisions alleged to be inimical to union labor probably will be the chief topic for debate at the convention of the American Federation of Labor here on November 11. It was said today. These include the conviction of Gompers, Morrison and Mitchell for contempt of court and the imposition of a fine in the Danbury hatters' case.

## AULT RANCHER KILLS SELF OVER REVERSES

ALBUQUERQUE, Colo., Nov. 8.—Al Hennessey, aged 40, living near Ault, committed suicide this morning by shooting himself with a 38-caliber revolver. Hennessey leaves a wife and three children. Mrs. Hennessey says her husband's mind had become unbalanced because of financial troubles.

BEAUTIFUL PRINCESS GOES TO WAR

Princess Alice of Greece, wife of Prince Andre, is at the head of the corps of Red Cross nurses who started for the front the other day. She is considered to be one of the most beautiful women in Greece, and is the mother of two handsome children.

## GREEK ARMY

(Continued From Page One.)  
said to have been massacred and the town almost completely burned. The population of Silivry was mostly Greek.

**Twelve Warships on Hand.**  
Such stories as these do not tend to assure the minds of the dwellers of Constantinople, where a sufficiently panicky feeling already prevails. Some of the sensational stories telegraphed abroad concerning the situation in Constantinople are not only exaggerated, but also misleading, as they are likely not only to react, but cause trouble locally among friends of the colonies.  
The presence of warships of the foreign powers, which it is understood will number 12, is the surest guarantee for the safety of the property and lives of Europeans, but the Turkish government also desires credit for the strong measures it has taken for keeping order within the capital.

The authorities are acting under a plan arranged by the foreign offices and the foreign consulates also have devised arrangements to protect their subjects. Two British steamers are lying in the harbor, ready to embark British subjects and the people of other countries have similarly been provided for.

## Appeal for Holy War

CONSTANTINOPLE, Nov. 8.—The Sheik Ulu Islam, head of the hierarchy in Turkey, today issued the following appeal for a holy war in a manifesto addressed to the Elmas and Hodkas.  
With a view to exciting and encouraging the soldiers of the enemies who surround us, their priests, cross in hand, are working in the ranks of the army. It is not fitting that our Elmas should neglect the accomplishment of a similar duty.

In order that the victory and glory promised by the Almighty prophet may be granted without delay to the Ottoman army, it is necessary that the venerable Elmas organize a Jihad. Such a holy war has moreover become an obligation if the condition of the Ottoman soldiers, who are all heroes, is to be strengthened.

**Danger Unites All Parties.**  
There have been rumors for a day or two that the ministry was unstable, owing to its request for mediation by the European powers, but the newspapers say this situation has given way before the demand of the army and public opinion that the war be continued. The supreme danger seems to have united all parties.

This is shown by the perfervid outburst of the newspapers of all political shades, urging a fight to a finish. The explanation of this new-born unanimity may be found in the suggestion by a high government official, that if it is found impossible to hold the line to Tchaatalja, other defenses are possible before the enemy can reach this city. Every male who has reached the age of 19 years will be expected to be ready to perform his share in the duty of protecting the capital.

## Fear Cholera Spread

CONSTANTINOPLE, Nov. 8.—Panic scenes continue to be witnessed daily with the arrival of train loads of wounded from the front. It is significant that most of these men are slightly injured, which would indicate that the badly wounded have small chance of being picked up. Almost without exception the wounded are on the verge of collapse from exhaustion.

Many have been without attention for days and a majority of them without food or water for 24 hours. The hospitals are overcrowded and symptoms resembling cholera have appeared. Those suspected of having the disease are isolated in a special shed. To the dread scourge would come to Constantinople, where already there is so much distress and suffering among the wounded and refugees the consequences are too terrible to compare.

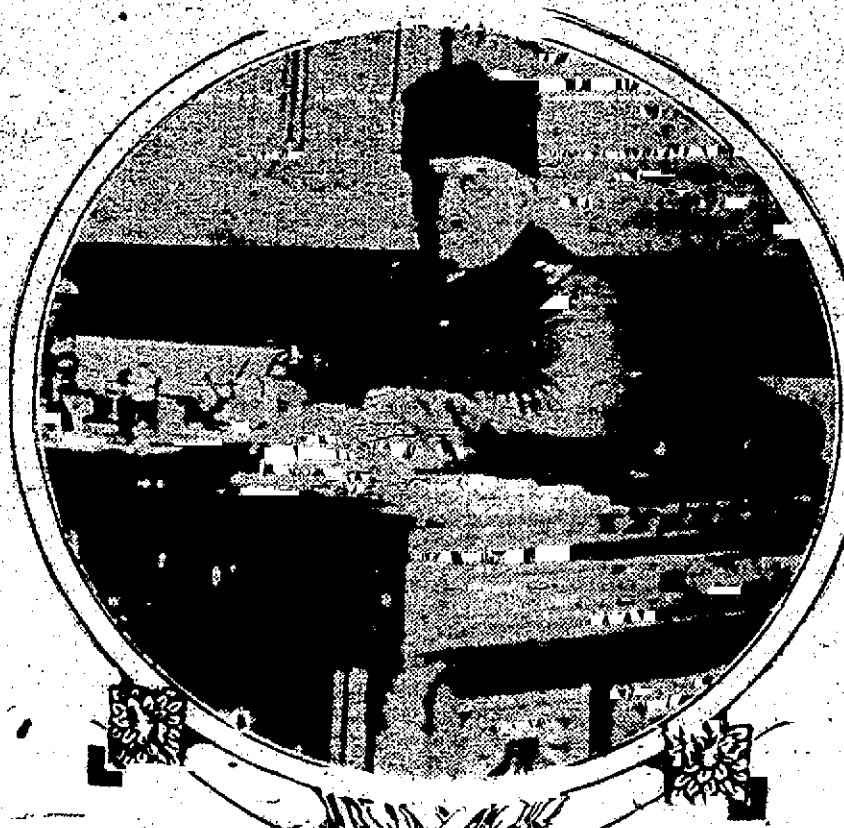

It is impossible to estimate the number of refugees in the capital. There are fresh arrivals each day and every mosque in Istanbul and the suburbs is crowded. Families from various villages and districts are striving as much as possible to keep together. All the refugees seem resigned to their fate and anxious to get to Asia Minor.

## IT WAS "TOMMY W. WILSON" AT PRINCETON IN 1879

PRINCETON, N. J., Nov. 8.—With the election of Woodrow Wilson as the twenty-eighth president of the United States a great many things in Princeton have assumed an historical value. Chief among these is the room occupied by Woodrow Wilson, Princeton, 1879.

Valerian Elliott, the prince sophomore, who now occupies room No. 7 in Witherspoon hall, did not know when he got it that it was historic. When he put a blue coat of paint on the mantel and hung up its various carvings of initials and records of athletic victories, he knew that he covered up the initials "T. W. W. '79" for it was as "Tommy" W. Wilson that the president-elect was known in his college days.

Primarily for the use of invalids is a chair invented by a Tennessean, so equipped with mirrors that an occupant can see what is going on around him without rising.

NAZIM PASHA, Commander Turkish Forces.

## GIRL HURT WHEN AUTO RUNS AWAY

SALIDA, Nov. 8.—Hurled headlong from a runaway automobile which crashed into the railing of a bridge 30 feet above the Arkansas river, Miss Della Masterson of Denver was rescued from drowning in a treacherous whirlpool in the stream only after Hartman Lines, himself a victim of the accident and painfully injured, plunged into the swirling water and at the risk of his own life dragged the young woman to safety.  
Miss Masterson's right leg was broken and she is in the Red Cross hospital here in a serious condition.  
Mrs. Daniel Elser, owner and driver of the automobile, sustained three broken ribs.  
According to Mrs. Elser, she was not driving fast, but as the machine ran down a steep grade, leading to the bridge, which is at right angles to the road, she lost control of the car. It plunged into the railing of the bridge and stuck.  
Miss Masterson, who was riding in the front seat with the driver, was hurled from the car and landed in the river. Lines, seated in the tonneau, was thrown over the heads of the women and struck the water only a short distance from Miss Masterson, although at the time he did not realize that she had been thrown from the machine.  
With difficulty Lines swam to the shore. Mrs. Elser, pinned in the machine by the steering wheel, shouted to him that the girl was in the water. Despite exhaustion from his own struggle in the water, Lines immediately swam to the assistance of Miss Masterson and dragged her, unconscious, from the river.

## OKLA. SCHOOL TEACHER IS ARRESTED IN CALIFORNIA

LOS ANGELES, Nov. 8.—Oliver Akin, who said he was principal of the public schools at Moore, Okla., and a former member of the Oklahoma legislature, was arrested here today on request of the Oklahoma authorities as a fugitive from justice. The sheriff at Norman, Okla., telegraphed that he was en route to Los Angeles. He said Akin was wanted for having obtained money under false pretenses at Norman. Akin said his arrest was a result of political animosity.

Miss can enter a carbox can that a New York man has patented, but as they try to get out they are caught in a wire trap, which can be detached and the insects destroyed.

## BANDITS GET \$10,000 LOOT FROM L. & N. TRAIN

BIRMINGHAM, Ala., Nov. 8.—Loot of \$10,000 is said to have fallen to bandits who robbed a southbound express train on the Louisville & Nashville railroad at Blount Springs early today. They entered the mail car, armed the clerks by a flourish of revolvers, took possession of several registered mail pouches, then signaled for the engineer to stop the train and escaped in the country a few miles north of Birmingham. Posses are on their trail.

## GAZE 60C A MONTH

To enable a person to leave a sunken submarine, a New Jersey inventor has patented a buoy which can be entered within a boat and set free to float to the surface of the water.

## Colorado City DEPARTMENT

### MR. AND MRS. JAS. RULE CELEBRATE ANNIVERSARY

Mr. and Mrs. James Rule, 305 Lincoln avenue, celebrated their thirty-fifth wedding anniversary Thursday night with an entertainment to the Mizpah Bible class of the Methodist church of which Mr. Rule is the pastor. The Rev. George H. Stuntz, pastor of the church, presented Mr. and Mrs. Rule with silverware in the name of the class just before luncheon was served. Among those present were Mr. and Mrs. C. O. Martin, Mr. and Mrs. H. Howell, Mr. and Mrs. E. C. McKnight, Mr. and Mrs. J. Dunn, Dr. and Mrs. M. H. Hoot, Mr. and Mrs. Roy Liles, Mr. and Mrs. George W. Brown, the Rev. and Mrs. George H. Stuntz, Mrs. McCarty, Mrs. Lou Musser, S. J. Drew and J. C. Henry.

Mrs. J. H. Shays, 110 Lincoln avenue, is ill at her home.

Mrs. C. D. Taylor who has been visiting relatives in Parsons, Kan., has returned to this city.

Dr. J. F. Willard is spending two weeks' visit with his parents at Lamont, Okla.

A dance will be given at Mick's hall November 19 by the Pleasant Hour club.

A. D. Taylor believes that the chamber commission should be composed of the largest taxpayers in town, regardless of their party affiliations.

At a meeting of the parents of children in the public schools, especially those in the High school, held at the high school building at 3 o'clock yesterday afternoon, President William F. Slocum of Colorado college spoke on "The Making of Citizens." He took up his subject with special attention to the importance of the home cooperating with the school in character building. There was a large attendance at the meeting. Tea and cakes were served after President Slocum's talk.

Election returns show that Colorado City went against statewide prohibition by 214 majority. Following is the vote:

Precinct 3—For prohibition, 197; against 169.	Precinct 6—For prohibition, 91; against 169.
Precinct 12—For prohibition, 103; against 192.	Precinct 18—For prohibition, 24; against 82.
Precinct 24—For prohibition, 47; against 42.	

### Personal Mention

Miss Ida McGill left last evening to spend the winter in Wichita, Kan.

Mrs. R. C. Schird underwent an operation for appendicitis yesterday morning.

Mrs. M. G. Dickinson left yesterday noon to visit her cousin, Clifford Graham, in Glenwood Springs.

Mrs. Thomas Lynch of Greensburg, Pa., is registered at the Antlers hotel while visiting her son, Thomas Lynch, Jr., of Colorado college.

Mr. and Mrs. John Griffith Harvey of Chicago, are at the Ewing apartments in Des Moines, Ia., for the winter. Mrs. Harvey was formerly Mrs. Charles D. Wilson of this city.

A. Schlegel, who has been in Salt Lake City to put up a special design made for the Mission theater by the Van Briggie pottery, has returned to this city.

Miss Pearl R. McMillan motored to Denver yesterday with her uncle and aunt, Mr. and Mrs. Oliver M. Dickinson, and will visit some time with them at 1339 Monroe street.

Dr. O. Grofer of Logan, Germany, and Mr. and Mrs. Thomas Tonge, Miss Evelyn A. Pathe and H. H. Shaw, all of Denver, are recent arrivals at the Alta Vista.

Mrs. Robert Taylor, formerly of Washington, Ia., is dangerously ill at the home of her daughter, Mrs. M. E. Burroughs, 108 South Wansatch avenue. Mrs. Taylor came to this city about three years ago.

### Societies and Clubs

The Liller District Improvement society will meet in the Liller cottage Tuesday, November 12, at 3:15 o'clock.

The Daughters of Vermont will meet at 3 o'clock Wednesday afternoon with Mrs. A. A. Hubbard, 18 Lathola apartments.

A regular meeting of Colorado Springs circle No. 852, Women of Woodcraft, will be held at 7:30 o'clock this evening.

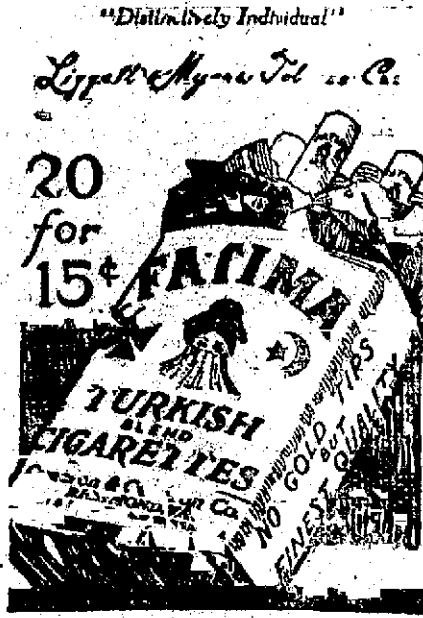

The L. T. R. S. club will be entertained next Tuesday with Mrs. R. M. Griddle at her home, 628 North Prospect street.

The home and education department of the Woman's club will meet this afternoon at 3 o'clock in the club rooms in the I. O. O. F. temple. The afternoon will be given over to a discussion of current events, the Balkan war being the principal topic. The hostesses will be the officers of the department.

The North End W. C. T. U. will meet at 3 o'clock this afternoon with Mrs. J. Elmer Cox, 981 North Weber street. Mrs. Charles S. McCroary will conduct the program, which will include a talk on "World's Peace" by the Rev. C. R. Garver, a solo by Mrs. William J. Porter and selections by Miss Rena Strong's mandolin club. Experiences of the campaign will be given by members. All women are cordially invited to attend.

A discussion of James Penimore Cooper, by Mrs. Mary Wahl, and a

It requires good tobacco to make good cigarettes, and good tobacco comes high. Only the inexpensive, practical wrapping enables us to offer 20 Fatima Cigarettes for 15 cents.

reading from his "Last of the Mohicans" by Mrs. Alice J. Jones, will occupy the meeting of Madison chapter K. P. E. O. at 2:30 o'clock this afternoon. The meeting will be held at the home of Mrs. Reno, 109 Nevada avenue, Manitou. The chapter is taking up a study of American literature during the winter months. The work of William Cullen Bryant will be taken up at the next meeting.

### JOHNSON CAN'T FURNISH BOND AND GOES TO JAIL

CHICAGO, Nov. 8. Jack Johnson, champion heavyweight boxer of the world, tonight occupies a cell in the county jail due to his failure to furnish \$50,000 bond for his release on a charge of violating the Mann act. No longer is Johnson's "golden snail" visible. His hard-fought fight, waged throughout an afternoon and evening session of Judge Landis' court, defeated him greatly. As he left the federal building, handcuffed to Deputy Marshal Edward Northington, after a little plea to not have his wrist manacled, his shoulders were slumped and his head hung down. He said nothing. In the course of his extended battle for bond, Johnson shed tears, pleaded, offered cash bond in advance, any amount, and employed two attorneys, David Backer and Edward Morris, in an effort to obtain his release. Three prospective bondsmen failed to qualify, and one of them, Albert Jones, was sent to jail after he had failed to obtain a bond of \$10,000 for his appearance in court next Monday, to answer a charge of contempt, which was laid against him by the court when he attempted to schedule property held to belong to his wife, Tony Mann, another prospective bondsman, was ordered out of court because he gave answers to questions which the court considered untruthful.

"Give cash bond in any amount, but for goodness' sake keep me out of jail," Johnson implored with his attorney. Both District Attorney Wilkerson and Judge Landis refused to consider a cash bond.

An unrefuted attempt to swindle this court by offering "unqualified" bondsmen has been made," said Judge Landis. "I will not consider a cash bond."

District Attorney Wilkerson said he intended to put Johnson on trial as soon as possible. The case probably will be called for trial next week.

Mr. and Mrs. John Griffith Harvey of Chicago, are at the Ewing apartments in Des Moines, Ia., for the winter. Mrs. Harvey was formerly Mrs. Charles D. Wilson of this city.

### DON'T NEED MONEY NOW, SAYS MRS. PANSY IFSH

LOS ANGELES, Nov. 8.—"I don't need the money," was the only comment tonight by Mrs. Pansy Ifsh, a confessed poisoner of two Missouri women, when she was told that she had a share in the \$75,000 estate of her late grandfather, J. M. Luttrell of Jacksonville, Ill.

Mrs. Ifsh, waiting in the city jail for the arrival of Missouri officers to take her to that state for trial, heard without emotion the announcement that she was an heiress. She said she had known of her relationship to the Luttrells, but had not thought the division of the estate would affect her in any way.

Chief of Police Sebastian has received letters from the woman's relatives. One of her uncles, E. F. Luttrell of Franklin, Ill., told the chief to tell Mrs. Ifsh he was sorry for her and to ask her to write to him.

### FATHER TURNS OVER SON WHO BROKE HIS PAROLE

SAN QUENTIN, Cal., Nov. 8. D. W. Lamb, a Shasta county ranchman, brought his son, who had broken parole to the state penitentiary, here today and turned him over to Warden Hoyle, ending a 300-mile journey. The son, who was sent to the penitentiary July 7, 1904, on a \$10,000 felony charge. He was paroled April 17, 1907, and returned to his father's ranch, but presently took to the road.

Lamb was traced to Washington by the prison officials. He returned home last week, out of funds, and his father immediately set out with him to the prison.

"I would rather have my son behind the bars," said the father, "than to have him at large through having broken a promise."

New York city is mighty restless. In eight days the average number of people daily in and out of the Grand Central terminal was from 115,000 to 125,000, or a total of 940,000 for the eight days, with 4,824 trains handled, an increase of 52 over the same period of 1911, and 31,269 cars, an increase of 1,704. In the rush hours the trains were thicker than street cars.

## N. M. GOOD ROADS BOND ISSUE WINS

ALBUQUERQUE, N. M., Nov. 8.—With returns from the state practically complete, the vote cast for preferential election in the state totaled 42,812, considerably larger than had been expected. The vote was as follows:

Wilson, 12,982; Taft, 15,512; Roosevelt, 7,982; Debs, 2,024; Chaffin, 300.

The precincts yet to be heard from will not make any appreciable change in the foregoing figures.

Late returns show that the \$300,000 bond issue for state roads carried by a majority in excess of 2,000, while the constitutional amendment, repealing the language qualification clause, prohibiting those unable to read, speak or write the English language from holding state office, had carried by a very close majority, probably less than 1,000.

A coincidence shown by the returns in the Wilson carried 31 of the 38 counties in the state, Taft but three, and Roosevelt one, Bernalillo county, in which the city of Albuquerque is located, went for Roosevelt by a majority of 191 out of 3,800 votes cast.

### HAZEL DAVIS

(Continued From Page One.)

yards of the little college town. I climbed into an empty car and soon the lights of the village disappeared in the distance.

"Was I afraid?"

"Not a bit. I am as naturally a child of the broad highway, as though the daughter of a gypsy, rather than of a clergyman. I have had experiences enough to write a novel that would make Jack London and other reputed, still-gloved, soft-handed wanderers sit up and wonder."

Has Traveled Far.

"I have wandered all over the country. 'A. No. 1,' the famous tramp, whose moniker decorates every water tank in any town of any consequence in the country, is a friend of mine."

"I never had much trouble in my own extent of travels. In where I tried to make a record on a road pile, but the women there saved me from such a fate."

"Being around railroads so much, I picked up the knack of telegraphy, and also learned how to wait on table. I am willing to work, but I would rather travel. I am on my way back east now from a trip through to the coast. Some day I may settle down, but not while youth lasts. It is too much fun traveling, especially when one can stand rides."

The girl is a brunette, 22 years old. She uses excellent English, although reverting occasionally to the parlance of the road. Her apparel shows the wear of rough travel, but her appearance indicates personal pride.

### PROHIBITION

Good roads bonds—For, 38,040; against, 25,143.

James Peak tunnel—For, 26,968; against, 33,868.

### PHOTOS DYNAMITERS

(Continued From Page One.)

of the opinion that it would be unwise to do anything whatever. Under existing circumstances a person cannot be too careful, for there are so many persons acting as informers.

"Another report received was that you wanted some organizing work done for much less than it was worth, and much less than was set aside for this particular job. I can understand how that would be if some four-flusher got all the particulars and then got cold feet. He would justify himself by saying somebody was double-crossing him."

Knocked Man Down.

The substance of more Cooley letters, as read, was:

Cooley wrote to McNamara, November 21, 1910, from New Orleans:

"I met a man named Miller, who had worked against the union here. I knocked him down and his head hit a post. I pleaded not guilty. It may turn out that it was more serious. I have hired a couple of witnesses to testify that Miller struck me first."

December 8, Cooley wrote:

"Miller was out of his mind. He had a silver plate put in his head. A friend of mine saw the judge and fixed it up so I got only 225 fine. I had almost the whole city hall behind me."

### BADEN SOLD TO RUSSIAN

NEW YORK, Nov. 8.—Baden (2:05 1/4), one of the star racers of the harness turf, has been sold by his owner, Louis Neidhardt of Jersey City, to an agent of Russian buyers, and will be shipped to his new home at the end of this month. The price paid for the crack stallion was not made public, but is believed to have been something like \$25,000.

Aerial torpedoes that a Swedish army officer has invented travel three miles, and can be made to explode either upon contact or by clockwork.

### MAY CONTEST

(Continued From Page One.)

the announcement of their determination to challenge the Los Angeles county vote in the event of a Roosevelt victory on the formal count, declared their action based not only on the alleged counting of Progressive ballots invalidated by pencil marks, but on alleged errors and irregularities of Republican judges of election in excluding valid Democratic ballots.

James D. Phelan and Randolph Spreckels authorized the Democratic state central committee late today to offer a reward of \$5,000 to anyone supplying evidence leading to the conviction of Samuel C. Evans, Progressive, by a vote of 24,563 to 21,173. The single election of any person on a charge of perpetrating election frauds. According to the terms of the offer, this reward will be paid for each individual conviction.

### Tallying Causes Mixup

The wide discrepancy in the complete returns from Los Angeles county as compared with the earlier returns—a change that wiped out an apparent lead of approximately 6,000 votes for Wilson in the state—was due in part to a switch in the method of tallying the popular vote. At the outset, the record was made up from the vote cast for the head of each electoral ticket. Later, when it became apparent that many Progressives had not voted for Wallace, the first Roosevelt electoral Progressive leaders demanded of the county clerk a recount in which a vote cast for any elector in the Progressive column was tallied as a vote for Roosevelt.

Late returns tonight reversed a Progressive plurality in the Eleventh congressional district and gave the victory to a Democrat, increasing the

Democratic representation from California to three and reducing the Progressive to four. William Kettner, county of San Diego gave Kettner a plurality of more than 8,000.

## ROW OVER COYOTE LEADS TO ASSAULT

CHITTLE CREEK, Nov. 8.—In a row over the theft of a coyote from a trap, W. B. Binkenship, a trapper, this morning struck C. M. Waite, a cook, over the head with a rifle at Florissant and then escaped to the hills. Fearing that he had killed him, it was reported here that Binkenship had shot and killed Waite.

Waite is a tall, dark man, about 30 years of age, and was seen by Binkenship in a field near the trap. Binkenship took him to task for it and the fight followed. Waite was unconscious for a short time but is able to get about.

### PENN MEETS MICHIGAN

PHILADELPHIA, Nov. 8.—Perfect weather today helped brace the members of the University of Pennsylvania and the University of Michigan football squads and added zest to their final preparations for tomorrow's game. Coach Yost says his men a severe drill in catching and running punts, in addition to the signal and formation practice.

Both teams are lighter than the teams which usually represent the two institutions, and each will depend on speed to win. The Michigan players are all in first-class condition, but three of the Red and Blue team are suffering from bruises and sprains received in last Saturday's game with Pennsylvania State.

# DR. PRICES' CREAM BAKING POWDER

A Pure Cream of Tartar Powder

Dr. Wm. Sedgwick Saunders, Medical Officer of Health of the City of London, Eng., was good enough to say that a long and universal experience has proved a cream of tartar powder the most efficient, safe and economical, making food which could not be deleterious to the most delicate stomach.

In England the sale of baking powder containing alum is absolutely prohibited.

WHEN BUYING BAKING POWDER, READ THE LABEL.

## STRIKE TAKEN UP

(Continued From Page One.)

centrates to the quarter and the preceding quarter, as follows:

First Quarter.	Pounds.
1912.	1,431,182
1911.	1,431,182
1910.	1,431,182

Second Quarter.	Pounds.
1912.	1,431,182
1911.	1,431,182
1910.	1,431,182

Third Quarter.	Pounds.
1912.	1,431,182
1911.	1,431,182
1910.	1,431,182

During the quarter there was a total of 1,431,182 pounds of concentrates, as compared with 1,431,182 pounds for the previous quarter, an increase of 42 per cent and the Arthur plant about 28 per cent.

One 1.41 Per Cent Copper.

The average assay of the ore mined during the quarter was 1.41 per cent.

Copper, as compared with 1.42 per cent for the previous quarter. The average cost per pound of concentrates produced during the quarter, after making allowance for smelter deductions and without crediting miscellaneous income, was 1.05 cents, as compared with 1.12 cents for the second quarter of 1912. If the net smelter concentrates in Utah, including those from the Bingham and Garfield railways, were credited to the cost of operations, the net cost per pound for the quarter would be 1.01 cents. The financial results for the quarter are as follows:

Fourth Quarter.	Pounds.
1912.	1,431,182
1911.	1,431,182
1910.	1,431,182

The above earnings are computed on the basis of 66.25 cents per pound for copper, which is approximately one cent less than the average net sales for the period. At the close of the quarter, no copper due for delivery from the refinery remained unsold.

Strike Reduced Output.

There was removed during the period a total of 1,431,182 cubic yards of equipment, as compared with 1,589,648 cubic yards removed during the second quarter of 1912. The decrease of 158,466 cubic yards was due to all work at the mine having been interrupted in September on account of labor disturbances.

The Magna plant was in full operation during the quarter until closed on account of a strike of ore chutes from the mines as a result of circumstances hereafter explained. The thirteenth and last section of the Arthur plant was started early in September and nothing in the way of construction remains to be done at either mill excepting the completion of the improvements in the coarse crushing departments now in progress at both of them which work is now nearly finished.

New Plant Not Necessary.

The contemplated extension of our Magna steam power plant to take care of the growth of our business has not been necessary, due to the acquisition of the Hydro-Electric generating plant at Nevada, 4000 ft. above the level of Salt Lake City and on the floor river in Utah and Idaho, by strong interests who will construct sufficient power plants to enable the Utah Copper company to produce its entire power requirements from them. This source of power supply has not heretofore been available. The principal terms to serve as the basis of a long-time contract covering the company's entire power requirements have been agreed upon and the board of directors have authorized the execution of such a contract. The basis upon which power will be purchased is such that the cost of it will be substantially less than heretofore, as produced from our own steam plant, and the conditions and obligations of the power contract insure a character of service fully as reliable and satisfactory as has previously or could result from the operation of the Magna steam plant even if enlarged to meet our full demands. The deficiency in tonnage and production for the month of September as compared with the other months of the quarter was due entirely to suspension of operations resulting from a strike having been called by the Western Federation of Miners, affecting all the mines of the Bingham district on the morning of September 18. The basis of the strike was a demand for a flat increase of 50 cents a day in the wages of all workmen engaged in the mining industry in the Bingham district, and recognition of the Western Federation of Miners by the companies in their dealings with employees. The class of workmen most active in bringing about the strike were those employed in underground mining, of which class the company employed comparatively few, the number being about 100 out of a total of more than 2,000 men employed by the Utah Copper company at its mines at Bingham. Very few of our surface employees belonged to the Miners' union, although quite a substantial percentage of them did belong to other unions. However, the Miners' union forces, composed, as has been stated, largely of underground workers from our and other properties, were sufficiently strong in numbers and active in the employment of intimidation and violence to force away from work the majority of our employees who wished to continue.

Running Two-Thirds Capacity.

Armed bodies of strikers attacked our workmen, the attack being accompanied by shooting, rioting and resulting in numerous personal injuries, though none of them were fatal, and in this way, our contented workmen were driven from the premises, which were for some days operated wholly or partially in the possession of armed strikers. Steps were immediately taken to regain possession of our properties, but it required some time to assemble a force of guards sufficiently large to successfully cope with the situation, and it was not until October 9 that we were again able to safely put any employees into the workings. On that date preparations began with the result that at the time of writing this report we are mining and milling at the rate of about 15,000 tons of ore per day, or approximately two-thirds capacity.

Vigorous attempts were made to call and force our workmen out at the mills, but these were not successful. They were, however, successful in closing plants but the number of employees lost was not sufficient to hamper us in any way and we now have a full complement of men in all departments at both mills at Garfield.

Work Underground Discontinued.

The forces at the mine are being increased rapidly and the outlook now is that it will only be a short time until we will be again operating at full capacity. No attempt has been made to resume underground operations at the mine. In fact, we were nearly ready to permanently discontinue underground mining when the strike was ordered.

Invitations have been received by the Chamber of Commerce to send delegates to four big national gatherings to be held in various parts of the country in the next few weeks, and members who will be able to attend are asked to notify Secretary Henderson. The national gatherings are as follows:

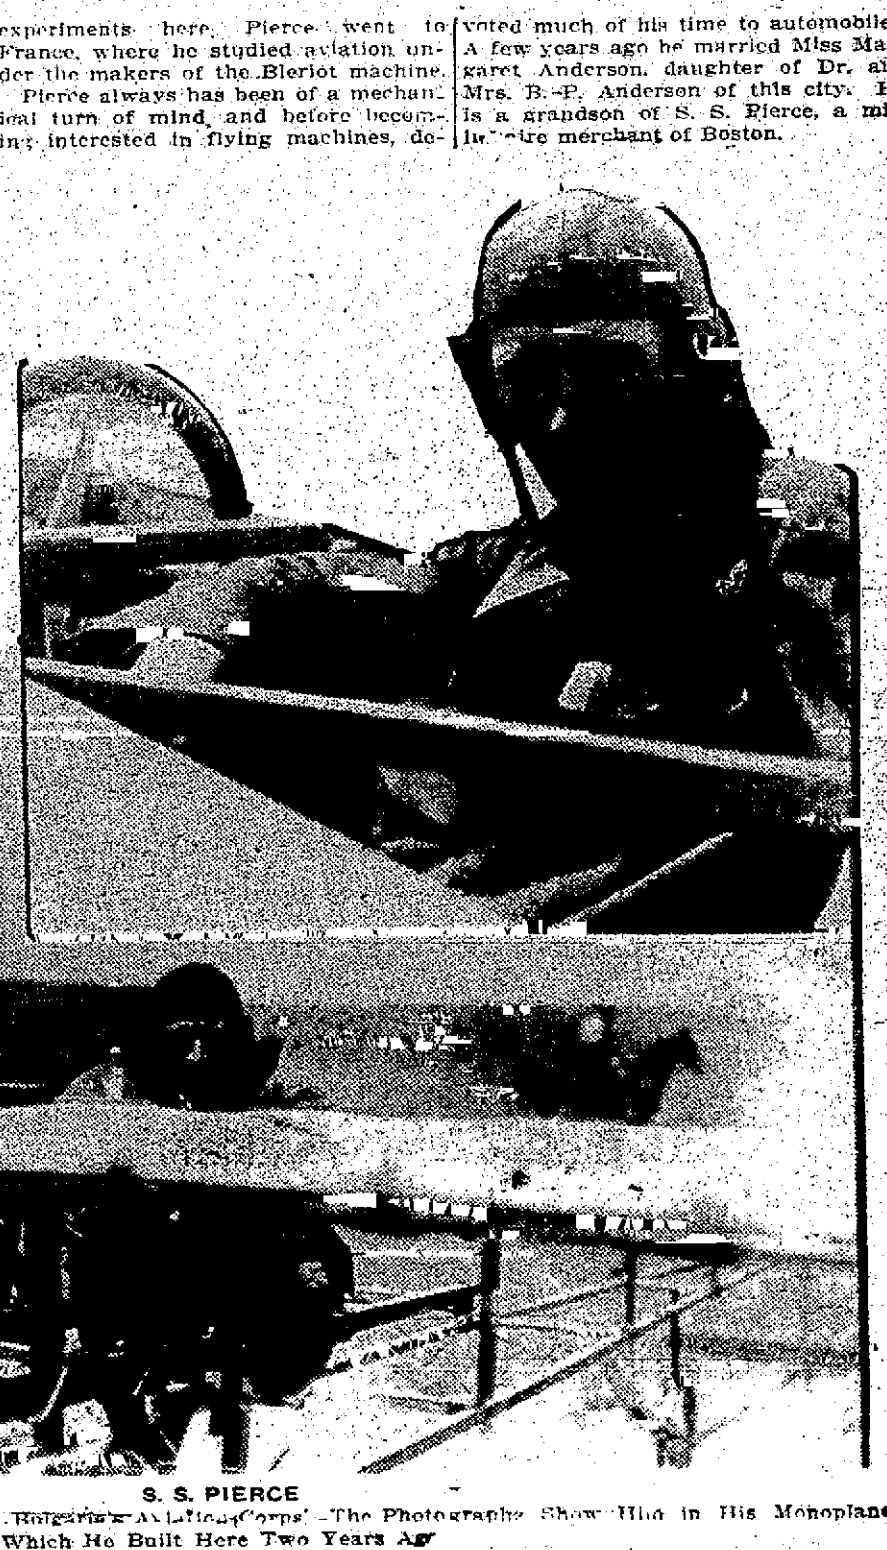

- National Rivers and Harbors Congress, Washington, D. C., December 4-8.
- American Mining Congress, Spokane, Wash., November 12-16.
- National Business Congress, Chicago, December 11-13.
- American Good Roads Congress, Cincinnati, December 2-8.

OTHER STATES TAKING TIP FROM COLORADO

The Colorado Association of Commercial Executives, of which A. W. Henderson is president, is setting an example for several states that boast of a number of commercial secretaries, and as the result, Nebraska and Mississippi have written Henderson asking him for information as to forming associations in those states. Letters were received from J. M. Hill, secretary of the Omaha Commercial club and E. L. Terry, secretary of the Commercial club in Yazoo, Miss., asking for information as to the uniting of the clubs of the respective states. Colorado is one of the few states in the union that has such an organization.

## S. S. PIERCE, SPRINGS MAN, DOING SCOUT DUTY IN MONOPLANE FOR BULGARIAN ARMY

S. S. Pierce is one of the few Americans, and the only man from Colorado Springs, who is taking an active part in the war in the Balkans. Pierce has joined the aviation corps of the Bulgarian army, according to press dispatches received here yesterday, for the purpose of assisting in the overthrow of Turkey. He lived in Colorado Springs until about a year ago, and is well known here and in Denver. Young Pierce took up the study of aviation about three years ago. He devoted many months to the construction of a monoplane patterned after the Blériot type, but his attempts to sail it successfully failed. He lacked an engine of the proper type and weight, and an automobile engine which he used in his attempts flights proved too heavy for the monoplane, and the craft would not rise more than a few feet from the ground. Following his experiments here, Pierce went to France, where he studied aviation under the makers of the Blériot machine. Pierce always has been of a mechanical turn of mind, and before becoming interested in flying machines, devoted much of his time to automobile work. A few years ago he married Mrs. Margaret Anderson, daughter of Dr. and Mrs. B. P. Anderson of this city. He is a grandson of S. S. Pierce, a mill and fire merchant of Boston.

S. S. PIERCE Of Colorado Springs, Who Has Joined Bulgarian Aviation Corps. The Photograph Shows Him in His Monoplane Which He Built Here Two Years Ago

News of Local Courts

A motion was filed yesterday in the district court for transfer of the liquor license of the Columbine Drug company, which recently assigned for the benefit of creditors, to the Walter Brewing company of Pueblo, in consideration of a loan of \$1,200, upon which there is default in a payment.

The suit of Fred Gorsline against the Colorado Midland railroad, in the district court, for \$5,000 personal injury damages, has been settled for \$1,350. Gorsline, a special brakeman, lost a leg about a year and a half ago, when he fell under a car at Lake George.

A fight over possession of a shirt resulted in the appearance of C. H. Graves and Ben Harlan, both colored, in police court yesterday morning. Graves was fined \$10 and Harlan \$20.

**CLAIMS DISCOVERY OF CURE FOR TUBERCULOSIS**

Dr. A. C. H. Friedmann of this city is an elder brother of Dr. Friederich Friedmann of Berlin, Germany, who said recently at a meeting of the Berlin Medical society that he had discovered a practical cure for every form of tuberculosis. The German physician exhibited cured patients, declaring that he had used his method with invariable improvement in the treatment of 682 cases and had usually accomplished complete cures. His method is to inject living tubercle bacilli which have been rendered benevolent.

**Dread of an Operation**

N. Manchester, Ind.—Mrs. Eva Bashore, of this place, says, "I suffered female misery of every description. Two doctors attended me, and advised an operation. I lost weight until I weighed only ninety pounds. I dreaded an operation, and, instead, began to take Cardui. In a short time, I gained 23 pounds, and feel as well as I ever did. Cardui, I am sure, saved my life." Cardui is today used in thousands of homes, where it relieves pain and brings back strength and ambition. It is a woman's medicine for women's ailments, and you are urged to try it for your troubles. Ask your druggist. He will tell you about Cardui. Adv.

**FORMER SPRINGS LAWYERS ELECTED DISTRICT JUDGES**

According to word received here, two former Colorado Springs attorneys were elected district judges in this state Tuesday. T. J. Black of Montrose county, at one time a local attorney and exalted ruler of lodge No. 309, B. P. O. E. is one of them and A. W. McHendrie of Trinidad the other. McHendrie is probably the youngest district judge in the state. He graduated from Colorado college in 1900 and has many friends here. In the last election he was a Progressive Republican and was endorsed by the Democrats. He was elected to the district bench in his district over Judge Henry Hunter, the incumbent.

**ONLY \$16,000 NEEDED NOW TO COMPLETE GYM FUND**

Only \$16,000 is needed to complete the fund for the new gymnasium at Colorado college, according to an announcement made yesterday morning by President W. F. Bloom. Three additional pledges from Colorado business men have been received for the fund.

**MAURICE BISCOE**, Architect for the new gymnasium to be built for Colorado college at a cost of \$100,000. Biscoe was also engaged to complete the plans for the Stratton home, when Architect G. E. Barton was taken ill.

\$20,000 club in which 20 business men are to give \$1,000 each. President Bloom would not make public the names of the men who have donated the amounts. The plans have been completed by Architect Maurice Biscoe of Denver and as soon as the \$100,000 fund is completed the work will start.

**WEEK OF PRAYER TO BEGIN NEXT MONDAY**

In connection with services under the auspices of the Young Men's Christian Association all day of the country, the Colorado Springs Y. M. C. A. will conduct a week of prayer beginning next Monday noon and closing the following Sunday afternoon. Services will be held every day from Monday to Saturday inclusive, from noon to 12:30 p. m. and the closing service Sunday afternoon will be at 3:30. All services will be in the Crystal theater. Coffee and sandwiches will be served every day.

Following is the list of speakers: Monday noon, Rev. C. R. Garver; Tuesday noon, Rev. J. H. Spencer; Wednesday noon, Rev. W. R. Renny; Thursday noon, Rev. J. S. Wilson; Friday noon, Rev. S. L. Brewster; Saturday noon, Rev. W. E. Bennett; Sunday, 3:30 p. m., Rev. R. P. Carson. Call for Prayer.

The following "Call to Prayer" has been issued: "The world-wide opportunity for service in the name of Christ and on behalf of young men and boys at home and abroad which is now presented to the North American Young Men's Christian associations is beyond precedent in the history of this work. In the overwhelming presence of this unusual opportunity the international committee joins with the world's committee in issuing the call for the observance by the associations of November 10-17 as the week of prayer for 1912."

A call to prayer is an invocation of the highest cooperative force within human reach, and, standing as we do before the wide open doors of opportunity and need, this call to prayer is issued with the emphasis of an unprecedented urgency. Surely, during the past 46 years of its observance we have never yet improved this annual opportunity with the effective fervency and efficiency which we might have employed.

May the vision of our greater opportunity and the constraint of our Lord's teaching, command and example, arouse us to such a degree of energy, wisdom and impartiality, as refuses to be denied and as will bring upon all our brethren in this work that divine blessing and qualification which will make this a year of unexampled achievement in extending the kingdom of Christ among young men and boys in this land and in all lands.

**THE INTERNATIONAL COMMITTEE OF YOUNG MEN'S CHRISTIAN ASSOCIATIONS.** ALFRED E. DARLING, Chairman. RICHARD C. MORSE, General Secretary.

swinges of rheumatism, backache, stiff joints and shooting pains all show your kidneys are not working right. Urinary irregularities, loss of sleep, nervousness, weak back and sore kidneys tell the need of a good reliable kidney medicine. Foley Kidney Pills are tonic, strengthening and restorative. They build up the kidneys and regulate their action. They will give you quick relief and contain no habit-forming drugs. Safe and sure. Try them. The Robinson Drug Co., Adv.

**REACH GROUND SHIP TAKE OFF PASSENGERS**

QUEBEC, Nov. 8.—Perthshire encountered this afternoon in reaching the ground ship Royal George in the St. Lawrence river and in taking off the 500 passengers passengers who will be sent to Montreal by special trains.

**Many Democratic Plums Are Ready for the Faithful**

There will be some interesting political house, the as it Tuesday in January, when the electoral college assumes office. It is not likely that the Democrats will be elected, so that there is little probability of a change in the personnel of their respective offices, but five jobs in the treasury office paying from \$100 to \$166.66 a month and six in the assessor's department paying from \$75 to \$125 a month, probably will be apportioned among the Democrats. It is not improbable that the subordinates in the county court will be retained, although W. R. Kinney succeeds Judge Little. A few new county commissioners on the board of three members may result in changes in the appointment of county attorney, county physician, poor superintendent and overseer, etc.

No change is expected in the district court employees. In the district attorney's office, Purcell will appoint an assistant to succeed himself, probably Deputy Burns and a new clerk, a successor to Burns will be named by Purcell.

No change will be made in the postmaster of Colorado Springs, Colorado City or Manitou. The term of the present postmaster, Strickland, does not expire until 1914, when Postmaster Morgan of Colorado City is appointed until 1916, and Postmaster Stratton of Manitou remains off until 1917. Several first-class post offices in this state, however, expire soon and in addition to these places, Democrats are creating covetous eyes in the offices of United States marshal, director of the revenue, minor courts, customs surveyors of customs, etc. A change is probable in the office of collector of internal revenue, which has been held by Frank H. Hunt of Colorado Springs. Several other appointments also are to be made.

**ASKS FOR MORE MONEY FOR HEALTH DEPARTMENT**

An increase in the health department is being asked by the health department. A bill for additional work was introduced in the legislature signed by Dr. H. H. H. chairman of the Chamber of Commerce committee on climate, business and public health and sanitation and read at the meeting of the city council yesterday.

According to the report of the health department, the health department is doing excellent work within the limits of its capacity, but the addition of inspectors to do tubercular work, along with the health department, is urged. For this purpose an appropriation of \$5,000 is asked.

Recommendations also were made for the keeping of more complete records, compilation of statistics and monthly publication of reports to be circulated throughout the country.

Asking that the appropriation be increased \$5,000 to make these recommendations effective a supplement to the appropriation was presented signed by Commissioner of Health E. W. Frost and Health Officer O. R. Gilbert. Both recommendations were approved.

**TELLS THE WHOLE STORY** To say that Epley's Honey & Tar Compound is best for children and grown persons and contains no opiates tells only part of the tale. The whole story is that it is the best medicine for coughs, colds, croup, bronchitis and other affections of the throat, chest and lungs. Stops the grippe, coughs and has a healing and soothing effect. Remember the name, Epley's Honey & Tar Compound and accept no substitutes. The Robinson Drug Co. Adv.

**TAX SALE FOR THE CONVENIENCE OF DELINQUENT TAXPAYERS, THE SALE THIS YEAR WILL NOT BE HELD UNTIL DECEMBER 9th.** F. M. MAHON, COUNTY TREASURER.

Auction sales daily, at 2:30 and 7:30 p. m. The Tucker Furniture Co. Adv.

**Deaths and Funerals**

After a lingering illness, Mrs. Emma Worth Lightner, wife of F. E. Lightner, died at her home, 908 North Custer avenue, yesterday afternoon at 4 o'clock. The funeral will be held from the residence tomorrow afternoon at 2:30 o'clock. The Rev. Merle N. Smith, pastor of the First Methodist church, will officiate. Interment will be in Evergreen cemetery.

Pullers and cords have been combined by a California inventor into a machine to teach a person the correct swimming motions while the lie on a cushion, safe on dry land.

**FIFTH VICTIM OF POISON MYSTERY IS BURIED HERE**

The body of John Henry Lusk, a former English capitalist who died at a local hospital Sunday morning from pneumonia poisoning, was buried in Evergreen cemetery yesterday afternoon. The funeral services being held from the undertaking offices of Hattie and Baker. It arrives in England ordered, instrument were, showing their previous plans of having the body sent to England.

Lusk was the fifth victim of a strange illness which followed a meal eaten at the Mary Murphy mine near Buena Vista, Colo. October 21. A postmortem examination was held by the physicians in attendance upon him in an effort to learn the nature of the poison, but proved unsuccessful.

**DR. AND MRS. W. A. BELL HERE ON PLEASURE TRIP**

Dr. and Mrs. W. A. Bell of London, formerly of Colorado Springs, and owners of considerable property here and in Manitou arrived here yesterday morning to spend several weeks visiting friends and to know after interests in the realty. Mrs. Bell was formerly Miss Mariette Palmer, daughter of the late General William J. Palmer.

Colorado Springs is well known as one of the health spots in the United States and Dr. Bell, Dr. Pikes Peak and the various institutions here are certainly good advertisements for this city. Dr. Bell and the new lighting system and much to the city and look for Colorado Springs to know rapidly.

**MAYOR HOPES TO RAISE MORE CASH FOR EXPENSES**

Mayor Avery has suggested plans to the commissioners for raising about \$5,000 toward defraying the excess of the city's expenditures. The city departments for 1913 over the estimated revenues. A conference will be held Monday to determine whether the plans shall be effected. Until then Mayor Avery declines to state the nature of the plans.

# TIGERS MUST SMEAR SHIRT PLAY OF MINERS TO WIN

Important Game of Season Staged This  
Afternoon on Washburn Field

"PINKY" LEWIS

Lewis, the blonde haired Tiger half-back, has played a sterling game this fall and is expected to figure prominently in the contest against the Mines today. Lewis is over-pleasant and has fighting qualities that overcome his lack of weight.

Assisted only by signal practice, punting and going down the field under kicks. The Tiger squad will be in good trim physically for the Mines, and there has been plenty of snap and dash to the work this week. The defeat by Boulder last Saturday has not had the effect of sending the eleven into a slump. On the contrary, it served to show the team some of its weaknesses, and from the way practice has been going on this week, the seasons have been taken very much to heart. It is not probable the lineup will be changed, and the same eleven that gave Boulder a close, hard game will face the Mines.

Coach Johnson has furnished the names and weights of the men who will oppose the Tigers Saturday, and it requires only a glance of the list to warrant the prediction that the Tigers are better fortified this season to play winning football than in many years past. The team is made up largely of veterans, it will outweigh the Tigers about 10 pounds per man, and doubtless will give Rothgeb's men as much, if not more, than they can handle.

Profit by Boulder Game. Profiting by the lesson learned in the Boulder game a week ago, the

Tigers, it is expected, will waste little effort on the Mines' line, should the first few efforts to pierce it prove unsuccessful. It would not be surprising to see the Tigers open up to the widest capacity early in the first quarter if tests of the opposing rushline fail to find a weak spot. Speed and up to the minute football are their assets, which are destined to play an important part in tomorrow's battle.

Holmes, the dusky demon who was Rothgeb's ace in the hole last Saturday, when he yanked him from the line and played him at fullback, will start the game in that position tomorrow. The colored star adds weight and balance to the pony backfield, and as a runner on the secondary defense proved his worth against the punning Boulder backs. He is strong as an ox and no one as yet has been able to pass him. He is a 10-second man and a powerful runner. If conditions make it favorable, Holmes can be put back in his old place at guard, and Mow, Deeks or Emery sent into the breach.

Vandermeer Coaching. Under the coaching of Vandermeer both Kramer and Greese are showing marked improvement in punting and place kicking. In Harper, the Mines have a clever and dangerous player, who is likely to score a field goal any time the ball advances to within striking distance, which, for Harper, means inside the 40-yard line.

Special attention this week has been devoted to the system of attack the Mines are expected to use in tomorrow's game. It is one translation of the various shift plays permitted under the new rules, and this week the Tigers were able to make substantial and consistent gains when they employed that system of attack.

As today's game will either eliminate the Tigers from the conference championship, if they lose, and still keep them in the running if they win, strenuous efforts are being made to key them up to the proper fighting pitch. Unlike the game with Boulder, the Tigers will not be playing against football tradition when they meet the Mines, for the records of the two eleven's give Rothgeb's men better than an even break with Coach Johnson's squad.

Mines Have Weight. The Mines will have the old advantage of weight, age and experience, however, and if the Tigers hope for victory, it will be necessary for them to play all the football they know for every minute of the game. The rival backfields will scale about even, the Mines' advantage being in the line.

Mines Here Overnight. The Mines team, under Coach Johnson's coaching wing, arrived last night and are quartered at the Acadia hotel. The team is in good shape and Coach Johnson expressed an opinion that his

HINEMAN, CHARGING FULLBACK OF THE GOLDDIGGERS  
The view shows the player carrying the ball on one of his famous rushes as an important part of the famous wing shift play. The Mines use the shift to good advantage and the Tigers believe that they can solve it today.

## RUGBY CHAMPIONSHIP TO BE DECIDED TODAY

BERKELEY, Cal., Nov. 8.—The collegiate rugby football championship of the United States will be determined here tomorrow at the annual game between the University of California and Stanford.

Twenty-five thousand persons will witness the game, and tickets were quoted tonight at \$50 each. The interest, the greatest shown since the establishment of rugby football in coast colleges, is heightened because of a declaration made several days ago from a clear sky by President David Starr Jordan of Stanford, that the men of his school would not compete unless assured that California would not indulge in unsportsmanlike conduct.

Rugby experts generally consider Stanford has the better chances of winning, although California's veteran backfield may overcome slight weight handicap in Stanford's favor. Showers predicted for tomorrow should decrease Stanford's advantage in this respect.

Tomorrow's game will give the winning team for of the seven matches thus far played between the two schools. California has won for three successive years.

team would win, but was not confident of victory to any degree of certainty. The probable lineup:

**MINERS:**  
Shanley, lg. .... Muncaster, rg  
Myers, lg. .... Koch, rg  
Cado, lg. .... Coyer, rg  
Young, c (cap.) .... Shapcott, c  
Greene, rg. .... Gerlach, lg  
DeLattre, rg. .... Blowers, lg. (c)  
Pearce, rg. .... Kramer, lg  
Harper, qb. .... Randolph, qb  
McKnight, lb. .... Lewis, lb  
Hinsman, lb. .... Holmes, lb  
Stingham, lb. .... Greese, lb

## BOWLING NEWS BOWLING SCORES

The City Hall bowlers won from the Robbins by 20 pins, at the Brunswick last night. Scores:

CITY HALL	ROBBINS
Kimmel 135 261 164	150 162 189
Ames 151 166 174	111 147 159
McRynolds 171 189 186	176 151 168
Fumble 195 185 209	153 141 141
Litzenberg 196 155 165	137 143 147
Totals 840 870	592 2638

On the Overland alley, the Sanitary Dairies team won two out of three from the Packers. The scores follow:

PACKERS	SANITARY DAIRIES
Routh 145 127 141	O'Leary 145 171 137
Ernest 122 149 145	DeChman 142 140 185
Stokes 189 152 171	Scott 176 144 161
Townsend 146 118 158	Colwell 157 182 119
Atthoff 119 166 155	Marshall 151 191 174
Totals 761 742 770	Totals 772 838 766

## SECOND ROUND FOR GOLF CLUB TROPHY

The second round for the Autumn cup will be played at the Colorado Springs Golf club today. J. A. Carvill is in the lead in the tournament with a net score of 71 and L. E. McIntyre second, with 80. The tournament is being played on consecutive Saturdays, 18 holes handicap medal play each week.

## YALE AND BROWN TODAY

NEW HAVEN, Conn., Nov. 8.—Yale plays Brown tomorrow on Yale field, it being the last home game but one for the Blue. The Yale team did not play last Saturday on account of the death of York, the right guard. Secret practices the last week had been strenuous under the watchful eyes of a big squad of former Blue stars as coaches. Tom Shavelin, a former All-American end, had not played into the practice, and has brought on from the west several new offensive men, probably none of which, however, will be used tomorrow.

LOUISVILLE CLUB SOLD  
LOUISVILLE, Ky., Nov. 8.—A deal for the sale of the Louisville club of the American Association practically was closed today. William Grayson has agreed to sell to William F. Knebelkamp, William Neal and O. H. Wathen, local men, for \$100,000. The option of the purchasers is due to expire tomorrow.

CHICAGO, Nov. 8.—Joe Tinker, shortstop of the Chicago Nationals, may yet go to Cincinnati as manager, according to his agent and that of Garin Herrmann, agent of the Cincinnati team. Charles W. Moore, president of the Chicago club, today denied that negotiations for the Tinker trade were off.

# C. C. Freshmen Defeat Terrors in Hot Battle

High school met a Tartar in the game with the Colorado college freshmen yesterday afternoon, which the former lost by the score of 13 to 15. The game was bitterly contested and was in doubt until the final whistle had blown. The Terrors' surprising slump in defense was largely responsible for the Baby Tigers' victory, while fumbles at crucial times lost the ball for the freshmen after they had advanced it to within striking distance of the Brown's goal line. The freshmen made their touchdowns on straight line plunges, using the famous wing shift for large gains through the line, while the Terrors opened up in the second half with a number of brilliant forward passes that allowed them to shoot players over the line for touchdowns.

The game brought out a host of players, who after a series of line plunges that the Terrors were unable to stop, Boulder won after the 30-minute period by kicking a field goal. The freshmen then chose to go on the ball, with several short runs in the first half. The freshmen played a very defensive game, but they were not able to stop the Terrors' offense.

After forward passes, the ball being in the hands of the freshmen most of the time, Haganan shot a long pass to Ross, and on the next play carried the ball over the goal line. Although missed, the score was 13-0 Terrors 0.

In the second half, Ross, freshman quarterback, took the ball through center on the shift play, and scored six more points for the freshmen. Although kicked goal from a difficult position.

The Terrors' points were made by Lewis, who tore through the center for the time on a fake pass play in the third quarter, and again, in the fourth section, got a forward pass and scored. The last few minutes of play were as exciting as has been seen in Washburn field this year. Fowler's toe was brought into action from the 25-yard line, and the ball blocked, saving the freshmen from a 16-13 defeat. After the play, Chaybaugh punted out of danger.

Terrors Use Forward Pass. The Terrors' offense, the overplayed tactic, used in the last half when pass after pass was shot from Fowler to the waiting ends of halves, with a good percentage of success. Fowler and Taylor were the Terror stars while Davis, quarter and end, who made both touchdowns for the Terrors, played a better offensive than defensive game.

The freshmen scored first in the first term. Being a good student, it is believed that he will wear Maroon next fall. It is said that Staggs wants him for an end position.

## JUDGE KINNEY

OUTSIDE of those who were indorsed by the Progressives, only one Republican candidate was elected to office in El Paso county, former stronghold of Republicanism. The one survivor was W. P. Kinney, candidate for county judge.

Mr. Kinney's victory, in view of the landslide against his party, was most remarkable. His election is sufficient proof of the fact that the people consider him the best man for the place. It comes, in large part, as a reward for the many times he has efficiently served the people, without remuneration.

Mr. Kinney was not on the Progressive ticket. Nevertheless, The Gazette joins with his many friends, in all parties, in congratulating him on his election. The Gazette is confident that, as judge of the county and juvenile courts, Mr. Kinney will serve the people without fear or favor, and with sympathetic and intelligent interest in the boys and girls who come before him.

It goes without saying that in all this work The Gazette will do everything in its power to assist him.

## THE GAME OF GAMES

A CRISP, sunshiny November afternoon, on all sides the flash of gay flags and banners, from the throats of hundreds of leather-lunged students the yell of victory, the sturdy cheer that will not admit defeat, the dull thud of the ball as it is booted high into the air, the straining of muscular young body against body, the almost unendurable physical strain as the ball is moved now up, now down the field; the fierce tackle, that brings tackler and runner to the ground in a whirl of dust; the reek of sweat from straining bodies; the long run that brings the crowd to its feet in veritable pandemonium.

That's football. And who is there, today, even though compelled to remain away from the game, whose thought will not be at Washburn field, where Miner meets Tiger to settle the annual score?

## A BIG STEP FORWARD

IN THE election just past nothing has been more remarkable than the sweeping victory won for woman suffrage. In five states the question was submitted to the vote of the people, and in all but one women were granted equal rights with men as citizens. Woman suffrage was adopted in Oregon, Arizona, Kansas and Michigan. In Wisconsin alone was it defeated.

In some respects Tuesday's election was a reactionary, not a progressive, victory. It is not likely that the cause of social and industrial justice, upon which the Progressive party based its campaign, will be advanced as a result of the election. The state's rights theories of the Democrats will prevent them from doing effective work in this respect, even were they minded, as a party, to set themselves seriously to a readjustment of social conditions.

But as regards woman suffrage the election was distinctly progressive. When in four states out of the five in which it was submitted to a vote woman suffrage came off victorious, it is plain to be seen that but few years more will be required to give women the ballot in a great majority of the states.

The demand for votes for women is an essential part of the world-wide demand for democracy. Democracy is sought, not as an end in itself, but as a necessary prerequisite to the securing of that justice for all men and women for which the world is struggling. It is necessary that the women take their direct part in this fight for justice. Most of the problems that must be solved concern them fully as much as they concern men. And women, with their quicker sympathies, their instinctive tendency to "mother" the weak and helpless, can do more than men, perhaps, in much of the work that is to be done.

It was because votes for women is a necessary element of that real democracy

for which it fights that the Progressive party incorporated a demand for woman suffrage in its national platform. And it is because of this same fact that the victory of woman suffrage in four states on Tuesday is a really progressive victory. To the six suffrage states of Wyoming, Colorado, Utah, Idaho, Washington and California have been added Oregon, Arizona, Kansas and Michigan. The number of women voters has been almost doubled. Such an impetus has thereby been given to the cause that it is certain to move on rapidly now to its ultimate triumph, when men and women, shoulder to shoulder, shall fight together for the common good.

## A SPLENDID BEGINNING

IT IS as yet impossible, except in the case of a few of the measures, to determine the fate of the bills submitted to the vote of the people of Colorado under the initiative and referendum. But, from the reports thus far received, there would seem to be no good cause for the doleful prophecies of disaster made by the opponents of direct legislation.

The home rule bill has been adopted by a big majority. That much is certain. And the initiative and referendum has proved its value if it has done no more than that. Every charter government in the state had been menaced by the decision of the supreme court in the Denver elections commission case, and had it not been for the initiative, permitting the people practically to reverse the supreme court by curing the legal defect which the court had discovered, the elections provisions of every charter would have been swept away, and with the restoration of partisan political machinery all that is best in the charters of Colorado Springs, Grand Junction and Pueblo would have been lost.

It is just as certain that the Moffat tunnel bill has been adopted. And the defeat of the one is as much a victory for the people as the adoption of the other. If Denver had had only the legislature to deal with, the people's money would have been appropriated for the construction of a private railroad, of benefit only to a small section of the state. Once such a principle had been adopted, it is hard to tell where it would have stopped.

Figures so far received show that the people have used commendable discrimination in voting upon all the 32 measures submitted to their judgment. It appears, for instance, that both the utilities bills have been beaten as they deserved to be. That the women's eight-hour law, the mother's compensation bill, the headless ballot, the publication amendment, the good roads bill, the recall of officials and the contempt of court amendments have been adopted. When has Colorado ever had a legislature that has passed anything like so large a proportion of good bills?

The people have proved their ability to govern themselves. They have made mistakes, of course. Mistakes are inevitable, in any form of government. But the people of Colorado, in their first experience with the initiative and referendum, have proved their ability to handle it. With added experience they will grow in wisdom. Some limitation upon the number of bills that may be submitted at one election may be found necessary, but the best limitation of this kind will be the election of a legislature that will do what the people want done, instead of throwing directly upon the people the entire burden of passing all needed and long-promised legislation.

FROM OTHER PENS

A GRACEFUL ACT OF DEMOCRATIC WOMEN.

From the New York American.  
 The ladies who have in hand the women's part of the Wilson campaign, have done a gracious and significant thing in canceling their plans for the great social-entertainment affair for next Monday night.

They have decided that the gayety and festivity of such an affair would not comport with the nation's attitude of mourning on account of the death of the vice president of the United States, or with their own feeling of sympathy for his widow.

It is thus that the civility of womanhood marks the dawn of a new politics, sensitive to public emotion and superior to parties and feuds.

WHITMAN'S WORK GOES ON.

From the New York American.  
 What would it profit the thugs and gangsters of New York to take the life of Charles S. Whitman?

They would simply make of him a martyr to civic duty—a soldier of principle, a hero of conviction.

And the blood of the martyr is always the seed of a cause. Out of the shed blood of the district attorney would spring other civic heroes ready to take up his work and carry it to conclusion. The sight of one free man makes thousands free. The blood of one brave man makes thousands brave.

The death of Whitman would not deter a single public servant from his duty. It would seal the fate of the gangster and thug in New York. The very stones would rise in mutiny against the reign of the assassin, and Whitman dead would plead as powerfully and effectively for civic righteousness and public safety as the brave public servant is pleading now.

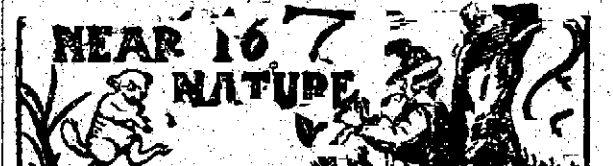

MRS. CLEVELAND'S NEW HAPPINESS.

From the Philadelphia Inquirer.

to reverse a good deal of the unfavorable personal opinion that was held by a large section of the people concerning President Cleveland. She supplied what was needed at the White house and the first wife of a president during his term of office became one of his greatest assets in public life. When the alliance was broken by death there was much sympathy for the widow who was still young and with undiminished charm. That she should marry again is entirely fitting and the new husband is to be congratulated.

THE NEW TYPE OF THUG

From the Washington Star.  
 An extraordinary fact about the New York case lately on trial involving the corrupt relations between the police department and the underworld is that the so-called "gangmen" and "runners" involved are of a quiet, apparently inoffensive type, not at all like the low-browed brutes who are usually pictured as the thugs and killers. The men on the witness stand gave their testimony in low, well modulated voices, using excellent English and showing almost a refinement of manner that contrasted strangely with their known performances. These men are the product of peculiar conditions in New York and perhaps in other cities. The fact that they have been active as gangsters and thieves does not, of course, mean that their traditional prototypes, the hoodlums and ruffians, have disappeared. They have passed out of being. Such characters are still found in the purlieus of large centers of population and ply their vicious trade in their own ways. But the more successful cracksmen and criminals of various degrees are now men of some education, some showing of gentility and excellent external appearance. Why is this? Is it partly because of the free association between all classes in a city like New York. Many of these Manhattan gangsters are children of immigrants, either born here shortly after their parents arrived or brought here as young and so reared in the American atmosphere with educational opportunities. In some way their lives have been warped into vicious channels. Perhaps it has been the result of tenement house life, from which they have sought to raise themselves by means of crime as the easiest way to make a good living and to present a "front" to their fellows. Sociologists will find an important line of research in tracing out the causes which have brought these men now involved in the Becker case to their present debased condition. That there is something utterly demoralizing in the atmosphere in certain phases of New York life is only too apparent, and one of the most important problems of today is to determine the nature of these influences and to eradicate them if possible. Law police methods, reaching the point even of actual criminality on the part of those charged by the law with its enforcement, have unquestionably contributed to this state of affairs, and it is at this stage of the case decidedly interesting to ask whether with a dependable, upright, incorruptible force, New York would produce fewer of these Lefty Louies and Bridgie Webbers and Harry Vallons and Jack Roses who now occupy the stage of public attention.

NEAR 16 NATURE

IT NEVER SPRINKLES BUT IT SHOWERS.

From the Philadelphia Evening Bulletin.  
 Since being confined in the hospital Mrs. Sprinkle had a birthday, and to her great surprise she was remembered with a postal shower from her friends in Philadelphia.

PUZZLE: FIND THE VANISHING POINT.

From the Mount Vernon (Pa.) Hawkeye.  
 The account of the marriage from a Boston daily is accompanied by a large, double column, halftone portrait of the bride, showing a markedly charming and beautiful perspective.

THE ECSTATIC REPORTER.

From the Detroit News.  
 Led by the ushers, the bridesmaids came, rainbow-hued and lovely beyond expression.

During the ceremony soft music murmured harmoniously through the church. The bride's gown was a very dream of loveliness, the high light of a wedding scheme of color which for purely artistic expression probably stands without a rival in the brilliant garb of the past. Each of the bridesmaids carried a large white throw, an anthemium, which added their own glories to the aggregation of beauty, and completed the rainbow effectiveness of the whole.

## On Envy

By RUTH CAMERON.

There are some people in the world who seem to feel positively insulted at other folk's good fortune. A young girl who had had a rather hard fight to make her way, finally made a big success in her work, and on top of that met, fell in love with and married one of the wealthiest and most desirable young bachelors in the city.

They have just returned from an extended wedding trip abroad and are planning to build a beautiful home in the prettiest part of the town, so naturally everyone in the neighborhood is talking about her good fortune. Among the rest the mother of one of the unmarried girls in her set was also talking about "lucky" lady.

"Well," she said, "Jane is pretty and stylish and makes a good appearance in company, but she certainly has an awful temper. They say it was nothing but a case of temper that separated her older sister and her husband. Desertion was named as the grounds for divorce, but everyone says he deserted her because he simply couldn't stand her temper. Well, with a mountain sight of money, she's just as bad-tempered."

Of course you know her, so of course you can imagine just how she contradicted the scene of her last statement by her emphatic emphasis on "hope."

She didn't want them to be happy, and she couldn't help showing it. She was a victim of a virulent attack of one of the most common of human diseases—the green sickness of envy.

Bride says the poor, is the last infirmity of noble minds. Undoubtedly, envy must be the next to last.

It may be because of my peculiarly ugly disposition, but the part of me that feels envy is just about the hardest citadel of the enemy for me to take. I may banish all outward show of it. I may go about proclaiming my rival's good fortune and praising him or her, but the instinctive "sour" of envy, the instinctive wish to find some flaw in the good fortune that I should have liked for myself, is still there. I could more easily make some treacherous sacrifice for my enemy or my rival than I could free myself of that feeling.

Have you never felt for a shamed instant a subconscious feeling of pleasure when you heard that some piece of ill luck had come to that particular person who had always had all the successes and the good things that you wanted?

Have you never felt a moment of sick disappointment when you heard of some crowning success that would place your rival in some field far above you?

If you have not, you surely have my most hearty congratulations.

But if you have, I know you will make it one of your chiefest ambitions as it is mine—to teach yourself to be genuinely pleased whenever you hear of anyone's good fortune and to forget what

## South Dakota

By GEORGE FITCH,  
 Author of "At Good Old Slawash"

South Dakota is the warmer fragment of the old territory of Dakota, which split during a constitutional convention in 1888, with a loud report, and afterward became two states, which are crowding the speed limit in their efforts to distance each other. South Dakota was a trifle ahead in 1910, but North Dakota was gaining, and settling along the state line are in constant danger of being torn apart by the immigration bureaus of the rival states.

South Dakota is a rectangular affair, about as big as New York and New England, with a thick sprinkling of people in the east end and an annex to the west end called the Black Hills. The east and middle corn, trying to ripen the corn crop before the frost comes is the popular east end diversion, and keeps the country in a state of nervous perspiration after the first of September. The west end used to raise hares exclusively, but has settled down and now mines gold and produces local color for western shows. The west end also contains the

The west end used to raise hares exclusively.

celebrated Bad Lands, which have never produced anything but bad men. East and west South Dakota are connected by several unimproved rivers, a state constitution, a wagon trail and a mutual dislike of Nebraska—none of which afford a satisfactory train service.

South Dakota was once the home of the Indian, the buffalo and the wild man, with the nervous and excitable trigger finger, but it has nothing more barbarous than land agents now. For many years it had the most flourishing divorce mill in the United States, and many a New York millionaire has been able to procure fresh wives, seasoned to taste, by living quietly at the Cataract hotel in Sioux Falls for six months and thus becoming a citizen long enough to avail himself of the state's laws of divorcing an uncivilized law. It now takes a year, however, to become a citizen of South Dakota, and the advocates of one wife at a time—but only for a short time—have moved on to Reno.

Sioux Falls is the metropolis of South Dakota, and is a handsome, pink stone city, with enough people to fill the Coliseum in Chicago comfortably. Pierre is the capital, to the intense disgust of Yankton, Chamberlain, Sioux Falls, Aberdeen and Watertown. Next to North Dakota, the greatest annoyance to South Dakota is the Missouri river, which wanders in a meandering manner through the state for the sole benefit of the bridge trust, and which once attempted a barefaced robbery by cutting around the city of Yankton in an effort to transfer it bodily to Nebraska.

The population of South Dakota is 600,000, which is pretty good for a country where, 30 years ago, the sun was the only thing which rose from the prairies.

IF THIS IS YOUR BIRTHDAY

Be considerate and give no offense. Especially those in employ be careful. General good fortune is indicated, and by keeping on the alert you will see an unusual number of things which can be turned to your advantage.

Those born today will be fortunate in their undertakings and generally successful in public life. Their faults will be those of the haughty and proud.

## HOW DYNAMITE EXPLODES

From Harper's Weekly.

It is the popular impression that dynamite seeks the line of greatest resistance. Place a quantity of black powder on a rock and light it with a fuse. It will flash, simply scorning the stone. Place a piece of dynamite on the same rock, and the rock will be shattered. Hence, the reasoning that dynamite follows the line of greatest resistance. Nothing could be farther from the truth, however. The black powder takes fire and explodes much more slowly than the dynamite, so that the elastic air that incloses it, as it does everything, gives way gradually, and the force is lost in the atmosphere. With dynamite, the explosion has been so sudden, the attack on the air so instantaneous, that for a fraction of a second it actually resists. The force of the dynamite is so tremendous that it cannot wait, and it is due to the rock, which, for the instant, becomes the line of least resistance. An illustration of this may be seen during a display of lightning. A fork of it strikes across the sky. It packs the air so densely that it can no longer make rapid progress in that direction, and it turns aside, to follow the line of least resistance. It cannot wait for the air to yield. It is the same with dynamite.

Of the \$24,000 public school teachers in the United States, more than four-fifths are women.

Don't think of buying a Christmas Present without first looking at  
**Hardy's**  
 An Exclusive Gift Store  
 16 N. Tejon

THIRTY YEARS AGO TODAY

November 9, 1882.  
 There was quite a celebration on the streets in honor of the Democratic and Independent victory. There were bonfires on Tejon street at the intersection of Pikea Peak and Huerfano.

At a special meeting of the city council the "Experimental Garden," now known as Antlers park, was accepted as a city park.

Charges were being circulated regarding the bulldozing of voters and frauds at Francoville at the time of the recent election.

The November term of the district court was opened at the court house.

## THE HASKIN LETTER

THE AMERICAN PRISON ASSOCIATION

By FREDERIC J. HASKIN.

The recent outbreaks which have occurred in several penitentiaries, especially those in Wisconsin during the past month, have caused the average citizen to give more consideration to the methods of dealing with human delinquency and the means taken to protect the public from the effects of their wrongdoing. Consequently, the American Prison association, which opens its annual convention in Baltimore, today, will have its deliberations more in the public limelight than is usually the case. This organization, which owes its existence to the International Prison congress, called in Cincinnati, in 1872, is composed of all the different bodies interested in prison reform and the safety and well being of the prisoners, as well as the prevention of the crimes for which people are consigned to terms of imprisonment. It includes as auxiliaries the National Wardens association and several others. In addition, most of the local organizations in the different cities, designed for the aid of prisoners, are also affiliated.

Its work is conducted under the direction of a number of standing committees. These have charge of the work along such specific lines as criminal law reform, prison discipline, prevention and probation, reformatory work and patrol of discharged prisoners, statistics of crime, and include several special committees for the investigation of the subject of prison labor and the conditions of jails, lockups and police stations. At present the entire association is agreed upon three principles, which will form the basis of the discussions of the present convention. These principles are: The advantages of the indeterminate sentence; the proper use of the parole, and the value of probation.

**Indeterminate Sentence.**  
 The indeterminate sentence has been pronounced to be the only really just way of dealing with individual offenders of all classes, since, in a measure, it makes it possible for a prisoner to limit his own confinement. It does not leave to the judge the responsibility of fixing the term of imprisonment, but rather to the prison authorities, who come in daily contact with the delinquent and know the probabilities of his reform by observing his general character. The present law may fix the term of imprisonment for the same offense, without regard to the circumstances that led up to it, but the indeterminate sentence will permit a prisoner, commencing with a first offense, to shorten his term if he shows signs of reform.

Among the recent cases that have come up are those of two men sentenced for counterfeiting. The one was an old offender, who raised the value of a one-dollar bill by passing on it a cipher cut from a calendar. The other was a first offender, who passed a number of these bills upon unsuspecting tradesmen in small towns. He was trailed through several states before he was finally captured and brought to court. It happened that the judge, before whom he was tried, was an old man, and unusually lenient. The culprit was sentenced to a year, and his term was brought before the same court, charged with counterfeiting a 50-cent piece. A new judge was in charge, who believed in severe measures, so this boy, for his first offense, was given five years for the same crime for which the old offender received only a light sentence.

**The Parole System.**  
 The parole system is already in operation in many American prisons. The governor of a western state has gone to the length of sending men packed on their honor to distances of 30 miles or more to work upon the road or some other public work. At first this leniency was greatly exploited, but it has developed within the past few months that, in at least one case, a party of paroled men were in the woods back of where they were making a road, and they had induced some outside men to take charge of it. This is an unusual occurrence, however, and must not be used against the entire parole system.

The parole, as utilized in the federal prisons of the country, has proved productive only of good, and its success is credited to the fact that the paroled prisoners, while not under guard, are visited frequently and regularly. During the past year there have been 400 federal prisoners released on parole and only six of these have violated its conditions. The reports presented from the state institutions, in which the parole is in use, about 10 per cent violate it. Yet this is a good showing, and one that proves its value, if given under certain limitations. In the federal prisons a man will be paroled only after careful investigation. It must be known that he is going into certain employment, and some responsible man, acting as "first friend," must guarantee his good conduct. In addition to this, a constant surveillance is kept as long as may be deemed desirable. It is felt by the more conservative prison officials that to allow a man or a number of men to go outside of the prison limits on their honor alone, is asking too great a risk for the safety of the community, as well as placing a strong temptation before the prisoners themselves. There are many cases on record, however, in which it has worked out satisfactorily.

**Probation and Convict Labor.**  
 The probation system is similar to the parole, in that it permits convicted persons to live outside of the prison confines so long as they are properly employed, excepting that it applies to persons before they are committed, giving them an opportunity to escape confinement. This is the system which has been so successfully used in the juvenile courts for delinquent children, and it has been tried with good results for a large number of adult offenders.

The greatest difficulty about its general adoption is the probation officers who would have to be provided to carry it into effect. From an economic standpoint it is especially good, as the offender, working outside of the prison, is entirely self-supporting, instead of being a tax upon the state. The utilization of convict labor for roads and other public works is a matter calling forth a great variance of opinion. It has been done with excellent results in a number of states. In Georgia, especially in Fulton county, there is a system of public roads built by convicts, which has become the pride of the state. The same may be said of Virginia, where it was ranked that counties desiring to improve their roads should furnish the raw material and the state would supply convict labor. It has been found, however, that in many instances the cost of conveying prisoners some distance to the work, and of maintaining guards over them while at work, was more expensive than to hire outside labor. This was especially true in the case of the Georgia system, where the cost of convict labor outside of the prison, containing that it lowers the price of work for other laborers. The system of leasing prisoners to contractors, which a few years ago was so prevalent in a number of states, is being rapidly abandoned. Georgia has abolished it by law before it arrived to utilize the work of convicts in road making.

**Three Federal Prisons.**  
 In the federal prisons the prisoners are employed upon improvements upon the buildings and may be transferred from one prison to another according to the need of their services. There are three federal prisons in the United States. These are designed to provide accommodations for offenders against federal laws, and regulations. Counterfeiting, smuggling and violations of the postal regulations, and banking laws come under this head, as do also infringements upon the laws prohibiting the white slave traffic, which have been passed so generally during the past two years. When persons are convicted of transporting "white slaves" from one state to another it becomes a violation of interstate law, and is, therefore, a federal offense.

The most important federal prisons are at Atlanta and Fort Leavenworth, and there is a third smaller one, located at McNeil Island, in the state of Washington.

# NOW GIRLS MAY AVOID PERIODIC PAINS

The Experience of Two Girls Here Related For the Benefit of Others

Rochester, N. Y.—"I have a daughter 13 years old who has always been healthy until recently when she complained of dizziness and cramps every month, so bad that I would have to keep her home from school and put her to bed for relief.

"After giving her only a few bottles of Lydia E. Pinkham's Vegetable Compound she is now enjoying the best of health. I cannot praise your Compound too highly. I want every good mother to read what your medicine has done for my child."—Mrs. RICHARD N. DUNHAM, 11 Exchange St., Rochester, N. Y.

Stoutsville, Ohio—"I suffered from headaches, nervousness and was very irritable. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, and before I had taken the whole of two bottles I found relief. I am only sixteen years old, but I have better health than for two or three years.

I cannot express my thanks for what Lydia E. Pinkham's Vegetable Compound has done for me. I had taken other medicines but did not get relief."—Miss CORA B. FOSNAUGH, Stoutsville, Ohio, R. F. D., No. 1.

Hundreds of such letters from mothers expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished for their daughters have been received by the Lydia E. Pinkham Medicine Company, Lynn, Mass.

Epworth League, 6:30 p. m. Leader, Mr. E. B. Van Riper. Subject, "The Ungathered Harvest." Teachers' council, Tuesday evening, at the church; teacher training class, 7 p. m. Wednesday, prayer and praise service, Wednesday, 7:45 p. m. Called meeting of the official board, Thursday, 7:30 p. m. at the parish house. Special evangelistic services will begin Sunday, December 1. A homelike church. Strangers gladly welcome.

Grace Episcopal—Corner Pike's Peak and Walnut streets. The Rev. Frank Hale Tourer, rector. November 10, twenty-third Sunday after Trinity. Holy communion, 7:45 a. m. Sunday school and service, 9:30 a. m. Morning prayer and sermon, 11 a. m. Evening prayer and address, 8 p. m.

First Baptist—Corner Weber and Kewa streets. Rev. James H. Spencer, pastor. Morning service, 11 o'clock. Address by Hon. Hensley Sand, president of the Northern Baptist convention. Evening service, 7:30 o'clock. Subject, "The Requirement of the Walk with God." Sunday school, 9:30 a. m. Junior C. P. society, 3 p. m. Inter-mediate C. P. society, 4:30 p. m. Young People's Society of Christian Endeavor, 6:20 p. m.

Evangelical Lutheran—Immanuel—German-English—Corner Washatch and Boulder streets. C. Luesenhop, pastor. Parsonage, next to church. Divine services, 11 a. m. and 7:30 p. m. The evening service will be held in the English language. The ninth anniversary of the church will be celebrated, Sunday school, 9:45 a. m. Confessional sermon, 10:30 a. m. German school, Saturdays.

First Evangelical Lutheran—Platte and Weber streets. Robert E. Wolf, pastor. Morning service, 11 o'clock; children's home mission exercise, Sunday school, 9:45 a. m. Young People's society, 6:45 p. m.

Immanuel—Presbyterian—Spruce street and Mesa road. David G. Moffatt, pastor. Morning service, 11 o'clock. Evening service, 7:30 o'clock. Sunday school, 9:45 a. m. Senior Young People's society, 6:45 p. m. The Tuesday Bible study is limited this week on account of Mrs. Wells' lectures. Prayer meeting, Wednesday, 7:30 p. m.

Swedish Baptist—West—Boulder street. A. J. Benson, pastor. Preaching postponed. Sunday school, 9:45 a. m. Wednesday, prayer meeting, 8 p. m.

First Church of Christ, Scientist—Boulder street and North Cascade avenue. Morning service, 11 o'clock. Evening service, 7:30 o'clock. Sunday school, 9:45 a. m. Senior Young People's society, 6:45 p. m. The Tuesday Bible study is limited this week on account of Mrs. Wells' lectures. Prayer meeting, Wednesday, 7:30 p. m.

Boulder Street Presbyterian—East Boulder street, near Institute. E. H. Liles, pastor. Morning service, 11 o'clock; subject, "Lessons From the Bible." Election, Evening service, 7:30 o'clock. Subject, "The God of Jacob and His Benedictions." Sunday school, 9:45 a. m. Mr. S. A. MacDougle, superintendent. Prayer meeting, 8 p. m. Wednesday. The Woman's Building society meets with Mrs. MacDougle, 536 East Boulder street, at 2 p. m. Thursday.

Hillside Congregational—Moran avenue and South Prospect street. Evening service, 7:30 o'clock; subject, "The Mistakes of Pilgrimage." Sunday school, 9:45 a. m. Mrs. Woodard, superintendent. Prayer meeting, Wednesday evening, 7:30 o'clock. Everybody cordially invited to all services.

Calvary Evangelical Association—Corner North Washatch and Union streets. C. J. Zetter, pastor. Morning service, 11 o'clock. Evening service, 7:30 o'clock. Sunday school, 9:45 a. m. Senior Young People's society, 6:45 p. m. The Woman's M. society, 8 p. m. in the church, 8:30 p. m. Miss Edna Swetzer, missionary to Japan, will address the Senior Y. P. A. next Sunday night. Friends and neighbors are cordially invited to attend this service.

Second Presbyterian—Fifteenth street and Washington avenue. Rev. John Y. Ewart, pastor. Morning service, 11 o'clock; subject, "The Marks of a Christian." Evening service, 7:30 o'clock; subject, "Is the Young Man Safe?" Sunday school, 9:45 a. m. Senior Young People's society, 6:30 p. m. The evening service will be in the interests of young men. Music by chorus choir. Prayer meeting and Bible study, Wednesday, 7:30 p. m. Everybody heartily invited.

Methodist Episcopal (South)—Corner Cheyenne avenue and Weber street. R. Ira Barnett, pastor. Morning service, 11 o'clock; subject, "An Emancipated People." Evening service, 7:30 o'clock; subject, "Sin and Its Cure." Sunday school, 9:45 a. m. Prayer meeting, Wednesday, 7:30 p. m. Woman's Missionary society, Thursday, 7:30 p. m. will add June 2:45 for Mrs. Wells' lecture. Choir practice, Friday, 7:30 p. m. at parsonage.

Tourist Memorial United Brethren in Christ—apartment house, Nevada and Vermijo avenues. Rev. Irving Kohler, pastor. Morning service, 11 o'clock; subject, "Saints in Wrong Places." (The beginning of special camp meetings continue through the week.) Evening service, 7:30 o'clock; subject, "Preparing for a Revival." Porter Bell, singing evangelist, will sing at all of the services. Sunday school, 9:45 a. m. 10 a. m. Edward M. Huffing, superintendent. Junior Young People's society, 3 p. m. Miss Lillian Holmes, superintendent. Senior Young People's society, 6:30 p. m.

# What the Press Agents Say

"BABY MINE"—TAUGHTER THAT RAISES THE ROOF

"Baby Mine," Margaret Mayo's laugh-play, is announced as the offering at the Grand Opera house Monday next, October 11.

No play in recent years has created more laughter than this sparkling comedy.

# How to Make Better Cough Syrup than You Can Buy

A Family Supply, Saving 98 and Fully Guaranteed.

A full pint of cough syrup as much as you could buy for \$2.50—can easily be made at home. You will find nothing that takes hold of an obstinate cough more quickly, usually ending it inside of 24 hours. Excellent for colds, croup, whooping cough, sore lungs, asthma, hoarseness and other throat troubles.

Mix one pint of granulated sugar with 3/4 pint of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (50 cents worth) in a pint bottle, and add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours.

This is just laxative enough to help ease a cough. Also stimulates the appetite, which is usually upset by a cough. The taste is pleasant.

The effect of pine and sugar syrup on the inflamed membranes is well known. Pinex is the most valuable concentrated compound of Snowy white pine extract, rich in quinine and other natural healing pine elements. Other preparations will not work in this formula.

The Pinex and Sugar Syrup recipe is now used by thousands of housewives throughout the United States and Canada. The plan has been imitated, but the old successful formula has never been equalled.

A guaranty of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

# THE BURNS NEWS NOTES

Matinee today at 2:30. Phone Main 200.

Tonight, "Our New Minister," a real comedy drama that is pleasing to all. Don't fail to see this, as it is one of the best The Burns plays ever produced, and that is going some.

Matinee today.

The plays we are presenting are not of the vulgar type nor of the silly sentimental, nor yet noisy tragedy. "Bertha, the Beautiful Manicurist," "Hogan's Alley," "Ten Nights in a Bar Room," "The Trunkless Man," "The Great Care is exercised in the choice of plays, so that no taint of offense could be given to the most fastidious. Remember, today is the last matinee of "Our New Minister."

The Burns is a family business house of clean plays and comfort for all.

# The cheeriest refreshment you can offer your friends,

# MOREYS Solitaire TEA

# The Best the grocer can deliver.

# Free Methodist—Washatch and Cheyenne avenues. George H. Reimer, pastor. Morning service, 11 o'clock. Evening service, 7:30 o'clock. Sunday school, 9:45 a. m. Friends are invited to help in the mission. Christian people are specially invited to attend and cooperate in these evangelistic services. And the church generally is cordially entreated to attend. Friends are invited to help in the mission. Christian people are specially invited to attend and cooperate in these evangelistic services. And the church generally is cordially entreated to attend.

# SPECIAL MUSICAL PROGRAM FIRST METHODIST CHURCH

The following special phonograph concert, accompanied by F. Sullivan Moore, organist, will be given at the First Methodist church tomorrow evening, beginning at 7:30 o'clock:

Contralto—Stille Nacht, Heilige Nacht (German Christmas song) Mme. Schumann-Helk. Tenor—Lead Kindly Light. Dykes Soprano—I Know That My Redeemer Liveth. Handel's Messiah. Soprano—With Verdure Glad. Haydn's "Creation." Miss Marsh. Tenor—in Native Worth. Haydn's "Creation." George Hamilton. Baritone with Choir—God Is Love. Reinhold Werrenrath and Choir. Duet—Whispering Hope. Hawthorne. Duet—Hymn of Praise. Mendelssohn. Mmes. Homer and Gluck. Violin—Ave Maria. Schubert. Miss Maud Powell.

# SCENE IN WILLIAM A. BRADY'S LAUGH-PLAY, "BABY MINE," Which Comes to the Grand Opera House on Monday, November 11.

Miss Mayo confesses that she got the idea for "Baby Mine" from a newspaper clipping, which stated that thousands of husbands are fondling babies in the belief that they are their own. With this basic idea, Miss Mayo has fashioned the funniest play of recent years. From the moment the hot-headed husband leaves home in a towering rage, and when, later, a comforting female friend of the wife suggests that he be lured back by a telegram announcing that at last he is the father of a baby boy, "Baby Mine" takes on all the aspects of a screamingly funny comedy that knows no letup in its laughing department.

A year in New York, eight months in Chicago and nearly two years in London, is but a brief record of the comedy's run.

As a laugh producer, "Baby Mine" is said to be the greatest success the stage has ever known. The play, unique in origin and mission, fulfills the part it sets out to accomplish, as an instrument of roaring comedy.

"Baby Mine" tells a simple story of a young wife whose propensity for fibbing drives her husband to another city, from which place he is lured back by the story of a baby in the house. The skill with which the complications are said to be handled, and the farcical humor and rapidity of the development, are all features which form the success of this delightful comedy.

The presentation of "Baby Mine" will be peculiarly interesting, because it brings the well-known players who have been identified with one of the long runs in New York and Chicago. Seats now selling at the theater box office. Phone Main 720.

# Hibbard & Company

# Richelieu the Underwear for Discriminating Wearers

These new fine weave Union Suits and separate garments are the only perfect fitting garments knit without side seams. And better they cost no more than ordinary bulky coarse stitch or the old seamy sided fine stitch garments.

Every manufacturer would prefer to make seamless garments, but as the Richelieu-Mills own knitting patents on the machines used in the knitting, they can make the exclusive seamless, fine stitch underwear. Let us show you Richelieu "Seem-less" and "Win-sum."

# Our Popular 85c Outing Gowns

A lot of new Soft Messaline Silk Petticoats, good quality silk, tailored flounce just the right width; in black, navy blue, white and changeables. Special price \$2.28

# YOU NFFD S.S.S.

Every sufferer of Rheumatism needs S. S. S. because this great blood purifier is a certain cure for the painful disease. Rheumatism is caused by an excess of uric acid and other corrosive, irritating impurities in the blood, which are carried through the circulation to the different portions of the system. This acid matter coats the nerves, muscles and joints with a fine, caustic deposit and the sharp cutting pains or dull, constant aches are produced. S. S. S. cures Rheumatism because it is a perfect blood purifier. It goes into the blood, neutralizes the acids, and dissolves the irritating particles and forces them out of the system through the natural excretory channels. Then all inflammation and swelling subside, the pains and aches cease, and not only is Rheumatism permanently cured but under the tonic effects of S. S. S. the entire health is benefited and built up. S. S. S. reaches inherited cases as well as those which have been acquired, and good results always follow its use. S. S. S. is an absolutely safe remedy because it contains no strong minerals to damage the system. It is made entirely of roots, herbs and barks. Book on Rheumatism and any medical advice free to all who write and request same. S. S. S. is for sale at leading drug stores.

## (CRIPPLE CREEK MINES)

### DIVIDEND IS DECLARED BY GOLD SOVEREIGN CO.

Special to The Gazette.

CRIPPLE CREEK, Nov. 8.—Directors of the Gold Sovereign Mining and Tunneling company have declared a dividend of a quarter of a cent a share upon a capitalization of 2,000,000 shares, which will be paid shortly. It amounts to \$1.50, being the savings of about five years' money coming through royalties and into the treasury of the company.

The Gold Sovereign has weathered some stormy times, being the cause of several dangerous fights for control the last one being waged by Senator L. A. Van Tilburg of this city. Mr. Hinds of Le Mars, Ia., is president of the company, and has controlled the affairs of the company several years. The last dividend was for a half cent a share, amounting to \$1,000, which was paid during the administration of A. H. Rupp. A like dividend was paid in 1906 and 1907.

The company has had difficulty in paying taxes and the title. The storm has been weathered. It is said by some of the directors that the treasury is in good shape.

The Gold Sovereign mine is now leased to the Union Leasing company and an output of a dozen or so cars a month, nothing more, are to be taken from the mine.

The Union Leasing company is planning on sinking the shaft about a hundred feet.

## HOWBERT & PRICE WORK DILLON AND CONUNDRUM

Special to The Gazette.

CRIPPLE CREEK, Nov. 8.—Howbert and Price are shipping lead from the Dillon shaft on the Atlantic coast, on their own account. They have under lease. They have worked this property for several years, and developed the mine to a depth of 1,400 feet.

From this shaft and from the Dillon shaft, they are shipping lead. The Dillon shaft is now being worked. It is said to be the best lead mine in the state.

Operations in the Dillon shaft are being conducted through the Dillon shaft. That the Dillon shaft is being mined by Howbert and Price.

In the Dillon shaft, Howbert and Price are working the same time, a level is being run from the bottom of the shaft, and will be known as the Dillon shaft.

Since the mine was started in the Dillon shaft, it has been worked. The Dillon shaft is now being worked. It is said to be the best lead mine in the state.

The Dillon shaft is now being worked. It is said to be the best lead mine in the state. The Dillon shaft is now being worked. It is said to be the best lead mine in the state.

## KELLY INV. CO. DEVELOPS REQ'IA SAVAGE ORE BODY

Special to The Gazette.

CRIPPLE CREEK, Nov. 8.—The Kelly Investment company has a good chunk of ore which is being developed in a mine off the fifth level. When the values are fully determined, a crosscut will be run on the seventh level to open the ore. There is some difficulty always encountered in this shaft, with ore, but with the coming of cold weather, the ore will open.

Permitting the working of the ore, the ore will not be sought on the sixth level, because there is only 48 feet difference between the levels. A shipment of one or two cars will be taken out, with the next two weeks, the ore accumulating through the sinking of the shaft. It is of good grade.

It is the intention of officials of the Kelly company to thoroughly explore the Savage ore, and it is known that several good chunks of ore are being taken from the Savage ore.

## (CHICAGO MARKET)

CHICAGO, Nov. 8.—Grain that Austria might resort to arms in keeping her from the grain, brought about a decided advance today in wheat. Most of the gain, however, failed to hold the market, finishing unchanged, except for a slight rise.

Whereas a big trade in wheat throughout the day, the market almost unanimously found themselves on the bear side of the market, and prepared for war news.

December fluctuated between 88¢ and 89¢, with final transactions 89¢ and 88¢, a rise of 1¢.

Grain closed up under last night. The provisions also showed a decline for all the active options, especially for the 15¢.

HOWBERT WILL NOT MAKE ACCOUNTING TO COUNTY

Because he is one of the few court clerks in Colorado having jurisdiction in naturalization matters, who correct.

ly interpreted the law providing for the distribution of naturalization fees. Judge Howbert, clerk of the district court in Colorado Springs, will not have to make an accounting with the county.

A federal law provides that the clerks shall keep one-half the fees up to \$3,000 a year; the other one-half to be turned over to the federal government. Howbert and a few other clerks in Colorado turned over to the county each year the one-half given to the clerk.

Attorney General Benjamin Griffith, in a decision a few days ago, held that the clerk's half should be given to the county, and not retained personally by the clerks. A number of clerks, as a result of this decision, will be compelled to give to their counties the fees they have retained.

SMOKES CIGAR HE HAD KEPT FOR FIFTEEN YEARS

The election of a Democratic president gave Clarence M. Hawkins, who was a candidate for the district bench, opportunity to smoke a cigar which he has been hoarding for 15 years. The cigar was given to his father by a friend from the Philippines. Judge Hawkins gave it to his son 15 years ago under the promise that he would not smoke it until a Democrat was elected president of the United States. Mr. Hawkins smoked the cigar Tuesday night.

MISS COUTURE BETTER

The condition of Miss Margaret Couture, who was seriously injured last Tuesday evening when her large car with her at the corner of Pike's Peak avenue and Tejon street, is much improved. She recovered consciousness yesterday morning. Miss Couture is at her home in the 40 West apartments.

BECAUSE IT BUILDS UP TISSUE

strengthens the digestion, and tones up the system, is the reason your doctor wants you to take Olive Oil. But these objects will be defeated unless you use a strictly pure oil. That's the only kind we handle.

### FYFFE SELLS PROPERTY

L. C. Fyffe negotiated the sale of the property at 415 East Pike's Peak avenue yesterday from Blanche B. Johnson of San Diego, Cal., to Charles Werner of this city. The property consists of a 17-room house with a frontage of 50 feet on Pike's Peak avenue, and is one of the most valuable properties on the street.

S. R. Moss, Benches, Texas, says: "My baby had a dangerous attack of croup, and we thought we would lose him. But one bottle of Fyffe's Honey and Tar Compound pulled him through. We would not be without it in our house." The Robinson Drug Co. Adv.

### AUTO KILLS DOG

An automobile killed a valuable coach dog belonging to Albert Peterson of the San Antonio stables on North Nevada avenue, Thursday. The name of the driver of the machine has not been learned.

### Could Not Write

Versailles, Ky.—Mrs. Elisha Green, of this place, says, "I could not write all the different pains I had, when I first tried Cardui. I could scarcely walk. Now I am able to run the sewing machine and do my work; and my neighbors tell me the medicine must be good, for I look so much better." Cardui is a specific, pain-relieving, tonic remedy for women. In the past 50 years, it has been found to relieve women's unnecessary pains, and female misery, for which over a million suffering women have successfully used it. Try Cardui for your troubles. It will help you. At the nearest drug store. Adv.
